Outpatient Private Duty Nursing

Precertification is not a determination of eligibility or a guarantee of payment. Coverage and payment are contingent upon, among other things, the patient being eligible, i.e., actively enrolled in the health benefits plan when the precertification is issued and when approved services are provided. Coverage and payment are also subject to limitations, exclusions, and other specific terms of the health benefits plan that apply to the coverage request.

In addition to the precertification requirements listed above, you should contact AmeriHealth and provide prenotification for certain categories of treatment so you will know prior to administering treatment whether it is a covered service. This applies to the POS Plus network providers and patients who elect to receive treatment provided by non-participating providers. The categories of treatment (in any setting) include:

- any surgical procedure that may be considered potentially cosmetic;
- any procedure, treatment, drug, or device that represents "new or emerging technology";
- services that might be considered experimental/investigative.

The precertification list is subject to change. For questions about precertification, please call Customer Service at 1-800-275-2583. You can also go to www.amerhealth.com/providers/preapproval to learn more about precertification requirements for all products.

Prosthetics and Orthotics: Purchase items (including repairs and replacements) over \$500 (except ostomy supplies and mandated Prosthetic and Orthotic appliances)
