Introduction to your health plan

What is a primary care physician?

You have AmeriHealth Direct Point of Service coverage, which means, although you select a primary care physician (PCP), a referral from your PCP is only needed for spinal manipulations, routine X-rays, and physical/occupational therapy. For lab work, you should use the facility recommended by your PCP for the lowest out-of-pocket costs. For all other services, you may seek care from any in-network specialist and pay the in-network cost-sharing or select a doctor who is not in our network and pay a higher out-of-pocket cost. It's your choice.

How you choose or change your PCP

To select or change your PCP, search our provider network. Visit www.amerihealth.com/providerfinder where you can search by specialty (for example internal medicine or pediatrics), location, gender preference, and distance.

There are two ways to choose or change your PCP:

Online: To select or change your doctor, visit amerihealth.com, our simple, convenient, and secure member website. Click on the Change *my Primary Care Physician* link under the Find a Doctor or Hospital section.

Phone: Call 1-800-275-2583 (TTY: 711) and one of our Customer Service associates will take your PCP selection over the phone.

Using your ID card

You and your covered dependents will each receive an AmeriHealth identification (ID) card. It is important to take your ID card with you wherever you go because it contains information like what to pay when visiting your doctor, specialist, or the emergency room (ER), and your PCP's contact information. You should present your ID card when you receive care, including doctor visits or when checking in at the ER.

The back of your ID card provides information about medical services, what to do in an emergency situation, and how to use your benefits when out of network.

If any information on your ID card is incorrect, you misplace an ID card, or need to print out a temporary ID card, you may do so through amerihealth.com, our member website. You may also call 1-800-275-2583 (TTY: 711) and we will issue you a new ID card.

Locating a network physician or hospital

You have access to our expansive provider network of physicians, specialists, and hospitals. You may search our provider network by going to www.amerihealth.com/providerfinder. You may search by specialty (e.g. internal or pediatrics), location, gender preference, and distance. You may also call 1-800-275-2583 (TTY: 711) and a Customer Service associate will help you locate a provider.

How to receive care

Scheduling an appointment

Simply call your doctor's office and request an appointment. If possible, call network providers 24 hours in advance if you are unable to make it to a scheduled appointment.

Referrals

You are required to get a referral from your PCP for specialty services. All referrals are done electronically, so you can get the care you need as quickly and conveniently as possible. You won't need a referral for OB/GYN care, mammograms, mental health, or routine eye care. You may also check the status of your referral by logging on to amerihealth.com or on your iPhone or Android through the AmeriHealth App.

Services that require preapproval before receiving care

As an AmeriHealth Point of Service member, certain services in-network require preapproval prior to receiving care to ensure that the service you seek is medically necessary. Since your care is provided by your PCP, all necessary preapprovals will be obtained for you by your PCP.

It is important to understand that preapproval is not the same as the process for receiving referrals from your PCP.

Using your preventive care benefits

Quality care and prevention are vital to your long-term health and well-being. That's why we cover 100 percent of certain preventive services, offering them without a copayment, coinsurance, or deductible if received from your PCP or other in-network provider.

Covered preventive services include, but are not limited to:

- screenings for:
 - breast, cervical, and colon cancer
 - vitamin deficiencies during pregnancy
 - diabetes
 - high cholesterol
 - high blood pressure
- routine vaccinations for children, adolescents, and adults as determined by the CDC (Centers for Disease Control and Prevention)
- women's preventive health services, such as:
 - well-woman visits (annually);
 - screening for gestational diabetes;
 - human papillomavirus (HPV) DNA testing;

- counseling and screening for human immunodeficiency virus (HIV);
- screening and counseling for interpersonal and domestic violence;
- breastfeeding support, supplies (breast pumps), and counseling;
- generic formulary contraceptives, certain brand formulary contraceptives, and FDA-approved over-the-counter female contraceptives with a prescription.

Be sure to consult with your PCP for preventive services and/or screenings.

Wellness Guidelines

Your health and wellness are important. That's why we provide you with these nationally recommended tests and screenings to help you and your family stay healthy. We encourage you to take the time to review these guidelines and discuss them with your health care provider. Some of these services may require cost-sharing. * Additional resources along with tips to stay healthy and safe and topics to discuss with your health care provider are included.

To download our Wellness Guidelines, log on to amerihealth.com and click on the Health & Wellness Programs tab. Then click on Healthy Living, and then on Wellness Guidelines. You can also request a hard copy of the Wellness Guidelines by calling 1-800-275-2583 (TTY: 711).

*The Wellness Guidelines are a summary of recommendations based on the U.S. Preventive Services Task Force and other nationally recognized sources. These recommendations have been reviewed by our network health care providers. This information is not a statement of benefits. Please refer to your health benefit plan contract/member handbook or benefits handbook for terms, limitations, or exclusions of your health benefits plan. Please contact our Customer Service department with questions about which preventive care benefits apply to you. The telephone number for Customer Service can be found on your ID card.

Emergency care

In the event of an emergency, go immediately to the emergency room of the nearest hospital. If you believe your situation is particularly severe, call 911 for assistance.

A medical emergency is typically thought of as a medical or psychiatric condition in which symptoms are so severe, that the absence of immediate medical attention could place one's health in serious jeopardy. Most times, a hospital emergency room is not the most appropriate place for you to be treated.

Hospital emergency rooms provide emergency care and must prioritize patients' needs. The most seriously hurt or ill patients are treated first. If you are not in that category, you could wait a long time.

Urgent Care

Urgent care is necessary treatment for a non-life-threatening, unexpected illness or accidental injury that requires prompt medical attention when your doctor is unavailable. Examples include sore throat, fever, sinus infection, ear ache, cuts, rashes, sprains, and broken bones.

You may visit an urgent care center which offers a convenient, safe, and affordable treatment alternative to emergency room care when you can't get an appointment with your own doctor.

Retail health clinic

Retail health clinics are another alternative when you can't get an appointment with your own doctor for non-emergency care. Retail health clinics use certified nurse practitioners who treat minor, uncomplicated illness or injury. Some retail health clinics may also offer flu shots and vaccinations.

Not sure what facility to use? Go to www.amerihealth.com/findcarenow to help you decide where to go for care.

When to go to the ER:

- heart attack
- electrical burn

When to go to an urgent care center:

- sore throat
 - ear ache
-

Receiving services for mental health, alcohol, or substance abuse treatment

If you require outpatient or inpatient mental health or substance abuse services, a written referral from your PCP is not necessary. Magellan Behavioral Health administers your mental health and substance abuse benefits and can be reached by calling 1-800-275-2583 (TTY: 711). Refer to the terms and conditions of your group health plan to find out if you have coverage for mental health and substance abuse benefits.

Using your prescription drug benefits

Find out how to fill prescriptions

AmeriHealth Prescription Drug Program

Your prescription drug benefit program, administered by FutureScripts®, an independent company, provides many advantages to help you easily and safely obtain the prescription drugs you need at an affordable cost.

Take a look at the advantages:

- **Easy to use.** A national network of retail pharmacies will recognize and accept your member identification (ID) card.
- **Low out-of-pocket expenses.** When you use a participating pharmacy, your out-of-pocket costs are based on a discounted price, fixed copayments, or coinsurance.
- **No paperwork.** You don't have to file a claim form or wait for reimbursement when you use a participating pharmacy.
- **High level of safety.** When you fill a prescription at a participating pharmacy, your pharmacy can identify harmful drug interactions and other dangers by viewing your drug history.
- For maintenance drugs needed to treat ongoing or chronic conditions
 - **Home delivery.** Your program may allow you to receive drugs right at your door when ordered through the mail order service, eliminating time spent waiting in line at the pharmacy counter.
 - **Mail order purchases** allow you to get a larger supply of drugs than what might be available to you at the retail pharmacy. And, depending upon your plan design, your out-of-pocket expenses may be lower and you won't have to visit the pharmacy as often.

How to fill your prescription at a retail pharmacy

Present your ID card and your prescription at a FutureScripts participating pharmacy for your plan. The pharmacist will confirm your eligibility for benefits and determine your share of the cost of your prescription. Your doctor may also electronically submit your prescription to your pharmacy.

Participating pharmacies

A pharmacy is considered participating if it is in the FutureScripts pharmacy network for your plan. The FutureScripts network is a large network of retail pharmacies. When you're traveling, you will find that most of the pharmacies in all 50 states accept your ID card and can fill your prescription for the same cost you pay at home, if you use a participating pharmacy.

There is no need to select just one pharmacy to fill your prescription needs.

To locate a participating pharmacy, visit www.amerithealthexpress.com or call the number on your ID card.

Find a pharmacy

Visit www.amerithealthexpress.com or call the number on your ID card.

Non-participating pharmacies

If your prescription is filled at a pharmacy that does not participate in the network for your plan, you will have to pay the pharmacy's regular charge right at the counter. Then, depending on your plan design, you may submit a prescription reimbursement claim form for partial reimbursement to the address noted on the form. Your reimbursement check should arrive within 14 days from the day your claim form is received.

Keep in mind that your plan sponsor selected AmeriHealth and/or its subsidiaries based in part on the discounted drug prices that FutureScripts has negotiated. When you use a non-participating pharmacy that has not agreed to charge a discounted price, it costs your plan more money; part of that cost is passed on to you.

Understanding your prescription

A brand drug is manufactured by only one company, which advertises and sells its product under a special trade name. In many cases, brand drugs are quite expensive, which is why your share of the cost is higher. Generic drugs are typically manufactured by several companies and are almost always less expensive than the brand drug. Generic drugs are approved by the U.S. Food and Drug Administration (FDA) to ensure they are as safe and effective as their brand counterparts. However, not every brand drug has a generic version.

We provide our members with comprehensive prescription drug coverage. The drug formulary includes generic drugs and a defined list of brand drugs that have been evaluated for their medical effectiveness, positive results, and value. The formulary is reviewed regularly to ensure its continued effectiveness.

To check the formulary status of drugs, simply log onto amerihealth.com.

In addition to the drug formulary, you will also find helpful information on these related topics:

- Prior authorization process
- Age and quantity level limits

If you're not sure if brand or generic drugs are right for you, talk to your doctor. The pharmacist may, on occasion, discuss with your physician whether an alternative drug might be appropriate for you. Let your physician know if you have a question about a change in prescription or if you prefer the original prescription. Your physician makes the final decision on the necessity of you getting a brand drug.

Certain controlled substances and other prescribed medications may be subject to dispensing limitations. If you have any questions regarding your medication, please call the pharmacy number on the back of your ID card.

Preventive drugs for adults and children

AmeriHealth's prescription drug plans include 100-percent coverage for some preventive medications when received from an in-network pharmacy. This means that you won't have to pay copays, coinsurance, or deductibles for certain preventive medications with a prescription from your doctor. Receiving this preventive care will help you stay healthy and may improve your overall health.

For a list of preventive drugs eligible for 100-percent coverage please go to www.amerihealth.com or call the phone number on the back of your ID card.

Mail order pharmacy

If your doctor has prescribed a medication that you'll need to take regularly over a long period of time, the mail-order service is an excellent way to get a long-lasting supply and, depending on your plan, reduce your out-of-pocket costs.

Brand vs. Generic

Generic drugs are as effective as brand drugs and could save you money. However, consult your doctor to find out which drug type is best for you.

Mail order is convenient and safe to use

If you choose mail order, your doctor can prescribe a supply that will last up to 90 days. This means that you can get three times as many doses of your maintenance medication at one time through mail order.

Mail order prescriptions have been safely handled through the mail for many years. When your order is received, a team of registered, licensed pharmacists checks your prescription against the record of all drugs dispensed to you by a FutureScripts network pharmacy. This process ensures that every prescription is reviewed for safety and accuracy before it is mailed to you.

If there are questions about your prescription, a pharmacist will contact your doctor before your medication is dispensed. Your medication will be sent to your home within ten days from the date your legible and complete order is received. There may be times when you need a prescription right away. On these occasions, you should have your prescription filled at a local participating pharmacy. If you need medication immediately, but you will be taking it on an ongoing basis, ask your doctor to write two separate prescriptions: you can have the first prescription filled locally for an initial 30-day supply of your medication, and you can send the second prescription to FutureScripts for a 90-day supply provided through the mail.

How to begin using mail order pharmacy:

1. When you are prescribed a chronic or “maintenance” drug therapy, ask your doctor to write the prescription for a 90-day supply, plus refills. Make sure your doctor knows that you have a mail-order service so that you get one 90-day prescription and not three 30-day prescriptions, because the cost of the three 30-day prescriptions may be more than the cost for one 90-day prescription. If you’re taking medication now, ask your doctor for a new prescription.
2. Complete the *FutureScripts Mail Service Order Form* with your first order only. Forms and envelopes are available by calling the number on your ID card or download the form from amerihealththeexpress.com.
3. Be sure to answer all the questions, and include your member ID number. An incomplete form can cause a delay in processing. Send the completed *Mail Service Order Form*, your original 90-day prescription, and your payment instructions to FutureScripts.
4. Your mail order request will be processed and your medication sent to you within 14 days from the day FutureScripts receives your order, along with instructions for future refills. Standard shipping is via U.S. Mail and is free of charge. Narcotic substances and refrigerated medicines will be shipped by FedEx® at no additional charge. Your order will be shipped to the address you provided on the form.

How can my doctor order a prescription for me?

Doctors may call our toll-free number to prescribe your medication(s).

Doctors may fax prescriptions. In addition to the prescription information your doctor must provide member ID number, patient name and patient date of birth. Note: To be legally valid, the fax must originate from the physician’s office. All state laws apply.

You will be dispensed the lower-priced generic drug (if manufactured) unless your doctor writes “brand medically necessary” or “dispense as written” on your prescription, or you indicate that you do not want the generic version of your brand drug on the Mail Service Order Form. A *Mail Service Order Form* will be included with each mail order delivery.

If you have any questions about your AmeriHealth Prescription Drug program, call the pharmacy benefits phone number on the back of your ID card.

Paying for mail order services

Your payment can be a check or money order (made payable to FutureScripts), or you can complete the credit card portion of the *Mail Service Order Form*. FutureScripts accepts Visa, MasterCard®, Discover®, and American Express®. Please do not send cash. If you are uncertain of your payment, call the number on your ID card. If the payment you enclose is incorrect, you will be sent either a reimbursement check or an invoice, as appropriate.

Mail order refills

When you receive a medication through the mail order service, you will also receive a notice showing the number of refills allowed by your doctor. To avoid the risk of being without your medication, mail the refill notice and your payment two weeks before you expect your present supply to run out. You can also manage and order your refills online through amerihealth.com.

The refill notice will include the date when you should reorder and the number of refills you have left. Remember, most prescriptions are valid for a maximum of one year. Please note: PRN (take as needed) refills in the Commonwealth of Pennsylvania are limited to five times or six months, whichever is less.

If you have any questions concerning this program, please contact FutureScripts at the pharmacy benefits phone number on the back of your ID card.

Self-administered Specialty Drug Coverage

Self-injectables and other oral specialty drugs that can be administered by you, the patient, or by a caregiver outside of the doctor's office are covered under your AmeriHealth prescription drug benefits administered by FutureScripts. Filling your prescription for a specialty drug via the FutureScripts Specialty Pharmacy Program can save you money and provide you with support by a pharmacist very experienced with specialty medications and their side-effects.

The administration of a self-injectable drug by a medical professional is covered under your AmeriHealth medical benefit, even if you obtained the self-injectable through the FutureScripts Specialty Pharmacy Program. However, the drug itself will be covered under your AmeriHealth prescription drug benefit.

The self-injectable drugs that are covered under AmeriHealth medical plans include drugs that:

- are required by law to be covered under both medical benefits and pharmacy benefits (for example, insulin);
- are required for emergency treatment, such as self-injectables that counteract allergic reactions.

An independent pharmacy benefits management (PBM) company, FutureScripts, administers our prescription drug benefits and is responsible for providing a network of participating pharmacies and processing pharmacy claims. The PBM also negotiates price discounts with pharmaceutical manufacturers and provides drug utilization and quality reviews. Price discounts may include rebates from a drug manufacturer based on the volume purchased. AmeriHealth anticipates that it will pass on a high percentage of the expected rebates it receives from its PBM through reductions in the overall cost of pharmacy benefits. Under most benefit plans, prescription drugs are subject to a member copayment.

INTRODUCTION

Thank you for joining the AmeriHealth Health Benefits Plan (the Health Benefit Plan). Our goal is to provide Members with access to quality health care coverage. This Benefit Booklet is a summary of Members benefits and the procedures required in order to receive the benefits and services to which Members are entitled. The Members' specific benefits covered by the Health Benefit Plan are described in the **Description of Covered Services** section of this Benefit Booklet. Benefits, exclusions and Limitations appear in the **Exclusions – What Is Not Covered** and the **Schedule of Covered Services** section of this Benefit Booklet.

Please remember that this Benefit Booklet is a summary of the provisions and benefits provided in the Program selected by the Members Group. Additional information is contained in the Group Master Contract ("Contract") available through the Members Group benefits administrator. The information in this Benefit Booklet is subject to the provisions of the Contract. If changes are made to the Members Group's Program, the Member will be notified by their Group benefits administrator. Contract changes will apply to benefits for services received after the effective date of change.

If changes are made to this program, the Member will be notified. Changes will apply to benefits for services received on or after the effective date unless otherwise required by applicable law.

The effective date is the *later* of:

- The effective date of the change;
- The Member's Effective Date of coverage; or
- The Group Contract anniversary date coinciding with or next following that service's effective date.

Please read this Benefit Booklet thoroughly and keep it handy. It will answer most questions regarding the Health Benefit Plan's procedures and services. **If Members have any questions, they should call the Customer Service Department ("Customer Service") at the telephone number shown on the Members Identification Card ("ID Card").**

Any rights of a Member to receive benefits under the Group Contract and Benefit Booklet are personal to the Member and may not be assigned in whole or in part to any person, Provider or entity, nor may benefits be transferred, either before or after Covered Services are rendered. However, a Member can assign benefit payments to the custodial parent of a Dependent covered under the Group Contract and Benefit Booklet, as required by law.

See **Important Notices** section for updated language and coverage changes that may affect this Benefit Booklet.

DESCRIPTION OF COVERED SERVICES

Subject to the Exclusions, conditions and Limitations of this program, the Member is entitled to benefits for the Covered Services described in this **Description of Covered Services** section. The Member may be responsible for applicable cost sharing or there may be limits on services as specified in the **Schedule of Covered Services** section of the Benefit Booklet. Additional benefits may be provided by the Group through the addition of a Rider. If applicable, this benefit information is also included with this Benefit Booklet. Please take time to read this **Description of Covered Services** and the **Schedule of Covered Services**, and use them as references whenever services are required.

More detailed information on eligibility, terms and conditions of coverage, and contractual responsibilities is contained in the Group's Contract with the Health Benefit Plan. This is available through the Group benefits administrator.

The Member can access most Covered Services directly without a Primary Care Physician's Referral. X-ray, laboratory, spinal manipulation and physical/occupational therapy services must be arranged by the Member's Primary Care Physician. In the event there is no Participating Provider to provide the specialty or subspecialty services that the Member needs, a Referral to a Non-Participating Provider will be arranged by the Member's Primary Care Physician, with approval by the Health Benefit Plan.

Some Covered Services must be Preapproved before the Member can receive the services. The Primary Care Physician or Participating Specialist must seek the Health Benefit Plan's approval and confirm that coverage is provided for certain services. Preapproval of services is a vital program feature that reviews Medical Necessity of certain procedures and/or admissions. In certain cases, Preapproval helps determine whether a different treatment may be available that is equally effective yet less traumatic. Preapproval also helps determine the most appropriate setting for certain services.

If a Primary Care Physician or Participating Specialist provides Covered Services or Referrals without obtaining such Preapproval, the Member will not be responsible for payment. To access a complete list of services that require Preapproval, log onto www.amerhealth.com, or the Member can call Customer Service at the phone number listed on the Member's ID Card to have the list mailed to the Member.

If the Member should have questions about any information in this Benefit Booklet or need assistance at any time, please feel free to contact Customer Service by calling the telephone number shown on the Member's ID Card.

PRIMARY AND PREVENTIVE CARE

The Member is entitled to benefits and Primary and Preventive Care Covered Services when:

- These Covered Services are provided or arranged by the Member's Primary Care Physician, as noted.

If the Member receives services that result from a Referral to a Non-Participating Provider, the following will apply:

- They will be covered, when the Referral is issued by the Member's Primary Care Physician and Preapproved by the Health Benefit Plan.
- The Referral will be valid for 90 days from the date it was issued. This is the case, so long as the Member is still enrolled in this Program.
- If the Member receives any bills from the Provider, contact Customer Service at the telephone number found on the Member's ID card. When the Member notifies the Health Benefit Plan about these bills, it will resolve the balance billing.

If the Participating recommends additional Covered Services:

- This will require yet another electronic referral from the Member's Primary Care Physician.

Note: Cost-sharing requirements, if any, are specified in the ***Schedule of Covered Services***.

"Preventive Care" services generally describe health care services performed to catch the early warning signs of health problems. These services are performed when the Member has no symptoms of disease.

Benefits are subject to the ***Schedule of Covered Services***.

Care under the Guest Advantage Program is obtained without a Primary Care Physician. No Referrals are needed. The Member will be required to obtain Precertification for certain services.

If the Member is enrolled in a Point-of-Service program, the Member will receive a Point-of-Service Rider which is separate from the benefits contained in this Guest Advantage Program. Benefits available to the Member under the Point-of-Service program, if enrolled, are not available to be used against any cost sharing that may be required under this Guest Advantage Program.

Emergency Services and Urgent Care outside AmeriHealth's Service Area are NOT subject to this Guest Advantage Program. Such care is always covered as if Participating Providers provided the Covered Services and supplies in the Service Area. Please see the sections on Emergency Services and Urgent Care Outside AmeriHealth's Service Area in this Benefit Booklet for terms and conditions regarding Emergency Services and Urgent Care outside AmeriHealth's Service Area.

How Does the Guest Advantage Program Work?

The Member may apply to be accepted as a Guest Advantage Member when outside AmeriHealth's Service Area. To be eligible for the Program the Member must be:

- An employee temporarily traveling outside AmeriHealth's Service Area for at least ninety (90) days, but no more than one hundred eighty (180) days;
- A Dependent student attending a school outside AmeriHealth's Service Area for more than ninety (90) days; or
- A Dependent living apart from the Member and outside AmeriHealth's Service Area for more than 90 days.

The Member must contact Customer Service by calling the number on the back of the ID card to request enrollment into this Guest Advantage Program. A request form will be forwarded by

Customer Service to the Member to be completed and returned to Customer Service. The request form must be received before being enrolled in the Guest Advantage Program.

Benefits under the Program are available for a limited period of time. The Guest Advantage Coordinator will confirm the period for which the Member is covered as a Guest Advantage Member.

NOTE: To apply to be covered as a Guest Advantage Member in the Guest Advantage Program, the Member is required to notify the Guest Advantage Coordinator by calling Customer Service at the telephone number shown on the ID Card. Once the Guest Advantage Member returns to AmeriHealth's Service Area permanently, that Member will be required to contact Customer Service and select a PCP at which time a new ID card will be issued.

NOTE: Because the Member's Primary Care Physician can give advice and provide recommendations about health care services that the Member may need while traveling, the Member is encouraged to receive routine or planned care prior to leaving home.

There are no Referrals needed for Covered Services and supplies provided under the Guest Advantage Program.

What happens if the Member has a Complaint or do not agree with the way benefits have been determined under the Guest Advantage Program?

If the Member has a problem or concern about the services or benefits received while in the Guest Advantage Program the Member has the same right to file a Complaint or to appeal a coverage decision as when in AmeriHealth's Service Area and receiving care from Participating Providers. The HMO has responsibility for benefits provided under the Guest Advantage Program. Refer to the Complaint And Grievance Appeal Process section in this Benefit Booklet. When filing a Complaint or Appeal involving services provided outside AmeriHealth's Service Area under the Guest Advantage Program, the Member will need to provide the dates of service and Provider information pertaining to the services for which the Member had an issue.

A Guest Advantage Member Must Obtain Precertification For Certain Services

Precertification is required for the same Covered Services that the Primary Care Physician or Participating Specialist is required to have Preapproved by AmeriHealth when the service is provided in the Service Area. To access a complete list of services that require Preapproval, log onto [www.amerihealth.com/My Benefits Information](http://www.amerihealth.com/MyBenefitsInformation) tab, or the Member can call Customer Service at the phone number listed on the Member's ID Card to have the list mailed to them. Services that require Precertification that have not been Precertified by the Guest Advantage Member will result in a Benefit reduction equal to 50% of the benefits otherwise payable.

Emergency Services and Urgent Care outside AmeriHealth's Service Area are NOT subject to the Program. Such care is always covered as if Participating Providers provided the Covered Services and supplies in the Service Area. Please see the sections on Emergency Services and Urgent Care Outside AmeriHealth's Service Area in this Benefit Booklet for terms and conditions regarding Emergency Services and Urgent Care outside the AmerHealth's Service Area.

How To Request Reimbursement For Covered Services as a Guest Advantage Member

The following information describes the process for a Guest Advantage Member in order to request reimbursement for Covered Services received as a Guest Advantage Member:

- The Provider may collect the cost sharing that appears on the ID Card for the visit(s)/service(s) or the Guest Advantage Member may be asked to pay the cost for the visit(s)/services(s) when provided.
- If the Provider does not agree to bill AmeriHealth, the Guest Advantage Member should send the itemized bill, along with proof of payment, to AmeriHealth.
- The Guest Advantage Member should be sure to include their full name, address and the Identification Number that appears on the ID Card.

No claim form is required. All requests for reimbursement should be mailed to the address on the back of the ID card.

AmeriHealth will send a check for the amount of the bill minus the Member's cost sharing.

Requests for reimbursement submitted to AmeriHealth as described above will be subject to the following actions by AmeriHealth:

- AmeriHealth will pay benefits for Covered Services within thirty (30) days of receipt of the request for reimbursement, if it is submitted electronically, and forty (40) days, if submitted by paper. This is true unless AmeriHealth contests all or a portion of the itemized charges.
- If AmeriHealth contests the itemized charges or a portion of them, the uncontested portion shall be paid within the time limits set forth above. If additional information is needed to finalize a request for reimbursement, such as medical records, AmeriHealth will notify the Provider directly.
- AmeriHealth will pay or deny all or a portion of a contested request for reimbursement within the time limits set forth above following AmeriHealth's receipt of the additional information requested from the Provider.
- Payment by AmeriHealth will be considered to be made on the date the instrument representing payment was placed in the United States mail in a properly addressed, postpaid envelope or, if not so posted, on the date of delivery.

- **PRECERTIFICATION (PRECERTIFIED)** - the process whereby certain services are reviewed and approved by AmeriHealth prior to being provided to the Guest Advantage Member. Precertification is the responsibility of the Guest Advantage Member. Precertification is required for any Covered Service that the Primary Care Physician or Participating Specialist must have Preapproved by AmeriHealth when the service is provided in the Service Area. To access a complete list of services that require Preapproval, log onto [www.amerihealth.com/My Benefits](http://www.amerihealth.com/MyBenefits) Information tab, or the Member can call Customer Service at the phone number listed on their ID Card to have the list mailed to them. The purpose of this review is to determine Medical Necessity and appropriate length of stay when applicable. A Guest Advantage Member is required to notify AmeriHealth of any service that requires Precertification.

The Guest Advantage Member must call the Precertification telephone number shown on the ID Card in order to comply with this notification requirement. Services requiring Precertification that have not been Precertified will result in a reduction of 50% of the benefits otherwise payable.

WHEN TO NOTIFY THE PROGRAM OF A CHANGE

Certain changes in a Member's life may affect their coverage under this Program. Please notify us of any changes through the benefits office of the Member's Group benefits administrator. To help the Health Benefit Plan effectively administer Members' health care benefits, the Health Benefit Plan should be notified of the following changes within 30 days: name; address; status or number of Dependents; marital status; eligibility for Medicare coverage, or any other changes in eligibility.

Open Enrollment

The Member's Group benefits administrator will have an open enrollment period at least once a year, and will notify the Member of the time. At this time, the Member may add eligible Dependents to their coverage.

Newly Hired

Within 30 days of becoming eligible for this new Group's Health Benefit Plan coverage, an individual may join this Program. The Member must add existing eligible Dependents to their coverage at this time or wait until the next open enrollment period.

Late Enrollment

If an individual or an individual's Dependent did not request enrollment for coverage with this Program during the initial enrollment period and did not enroll within 30 days of the date during which the individual was first eligible to enroll under this Program, the individual may apply for coverage as a late Subscriber.

Marriage

Members may add their spouse to their Program within 30 days of their marriage. Coverage for a Member's spouse will be effective on the date of their marriage.

New Child

Court-Ordered Dependent Coverage

If a Member is required by a court order to provide health care coverage for their eligible Dependent, their Dependent will be enrolled within 30 days from the date the Health Benefit Plan receives notification and a copy of the court order.

REMEMBER: The Member must notify the Health Benefit Plan of any changes to Dependent coverage within 30 days of the change in order to ensure coverage for all eligible family members. Notifications to the Health Benefit Plan should be through the benefits office of their Group benefits administrator.

TERMINATION OF COVERAGE

A Member's coverage may be cancelled, after receiving thirty (30) days advance written notice before cancellation and subject to their rights under the ***Complaint and Grievance Appeal Process***, under the following conditions:

- **Rescission:** If the Member commits intentional misrepresentation of a material fact or fraud in applying for or obtaining coverage from this Program. The Member will receive written notice at least thirty (30) days prior to termination but will have the right to utilize the ***Complaint and Grievance Appeal Process*** to appeal cancellation;
- **Misuse of ID Card:** If a Member misuses their ID Card, or allows someone other than their eligible Dependents to use a ID Card to receive care or benefits;
- **Changes to Eligibility:** If a Member ceases to meet the eligibility requirements;
- **Group Termination:** The Member's Group terminates coverage with this Program;

Inpatient Provision upon Termination of Coverage

If a Member is receiving Inpatient Care in a Hospital or Skilled Nursing Facility on the day this coverage is terminated by the Health Benefit Plan, except for termination due to fraud or intentional misrepresentation of a material fact, the benefits shall be provided until the earliest of:

- The expiration of such benefits according to the ***Schedule of Covered Services*** included with this Benefit Booklet.
- Determination of the Primary Care Physician and the Health Benefit Plan that Inpatient Care is no longer Medically Necessary; or
- The Member's discharge from the facility.

NOTE: The Health Benefit Plan will not terminate the Member's coverage because of their health status, their need for Medically Necessary Covered Services or for having exercised their rights under the ***Complaint and Grievance Appeal Process***.

When a Subscriber's coverage terminates for any reason, coverage of the Subscriber's covered family members will also terminate.

Termination of Coverage at Termination of Employment or Membership in the Group

Coverage for the Member under this Program will terminate on the date specified by the Group if the Health Benefit Plan receives from the Group notice of termination of the Member's coverage within 30 days of the date specified by the Group. If notification from the Group is not received by the Health Benefit Plan within 30 days of the date specified by the Group, the effective date of termination of the Member's coverage shall be 30 days prior to the first day of the month in which the Health Benefit Plan received the notice of termination of the Member's coverage from the Group, with the exception of any services covered under the Inpatient Provision. If the Member is receiving Inpatient Care on the date coverage is terminated, the Inpatient Provision will apply as defined above. Coverage for Dependents ends when the Member's coverage ends.

COVERAGE CONTINUATION

When The Employee Terminates Employment - Continuation Of Coverage Provisions Consolidated Omnibus Budget Reconciliation Act Of 1985, As Amended (COBRA)

The Employee should contact their Employer for more information about COBRA and the events that may allow the Employee or eligible Dependent to temporarily extend health care coverage.

Continuation Of Coverage Pennsylvania Act 62 of 2009 (Mini-COBRA)

This subsection, and the requirements of Mini-COBRA continuation, applies to Groups consisting of two to 19 employees. This provision applies when the Subscriber is an eligible employee of the Group.

For purposes of this subsection, a "qualified beneficiary" means any person who, before any event which would qualify him or her for continuation under this subsection, has been covered continuously for benefits under this Program or for similar benefits under any group policy which it replaced, during the entire three-month period ending with such termination as:

- The Subscriber;
- The Subscriber's Dependent spouse; or
- The Subscriber's Dependent child.

In addition, any child born to or placed for adoption with the Subscriber during Mini-COBRA continuation will be a qualified beneficiary.

Any person who becomes covered under this Program during Mini-COBRA continuation, other than a child born to or placed for adoption with the Subscriber during Mini-COBRA continuation, will not be a qualified beneficiary.

- If the Subscriber Terminates Employment or Has a Reduction of Work Hours: If the Subscriber's group benefits end due to his/her termination of employment or reduction of work hours, the Subscriber may be eligible to continue such benefits for up to nine months, if:
 - The Subscriber's termination of employment was not due to gross misconduct;
 - The Subscriber is not eligible for coverage under Medicare;
 - The Subscriber verifies he/she is not eligible for group health benefits as an eligible dependent; and
 - The Subscriber is not eligible for group health benefits with any other carrier.

The continuation will cover the Subscriber and any other qualified beneficiary who loses coverage because of the Subscriber's termination of employment (for reasons other than gross misconduct) or reduction of work hours, subject to the "When Continuation Ends" paragraph of this subsection.

- **The Group's Responsibilities:** The Group must notify the Subscriber, the benefits administrator, and the Health Benefit Plan, in writing, of:
 - The Subscriber's termination of employment (for reasons other than gross misconduct) or reduction of work hours;
 - The Subscriber's death;
 - The Subscriber's divorce or legal separation from a Dependent spouse covered under this Program;
 - The Subscriber becoming eligible for benefits under Social Security;
 - The Subscriber's child ceasing to be a Dependent child pursuant to the terms of this Program;
 - Commencement of the Group's bankruptcy proceedings.

The notice must be given to the Subscriber, the benefits administrator and the Health Benefit Plan no later than 30 days of any of these events.

- **The Qualified Beneficiary's Responsibilities:** A person eligible for continuation under this subsection must notify, in writing, the benefits administrator or its designee of their election of continuation coverage within 30 days of receipt of the notice from the Group.

Continuation coverage shall be effective as of the date of the event.

Upon receipt of the Subscriber's, or the Subscriber's covered Dependent's election of continuation coverage, the benefits administrator, or its designee, shall notify the Health Benefit Plan of the election within 14 days.

- **If the Subscriber Dies:** If the Subscriber dies, any qualified beneficiary whose group health benefits would otherwise end may elect to continue such benefits. The continuation can last for up to nine months, subject to the "When Continuation Ends" paragraph of this subsection.
- **If the Subscriber's Marriage Ends:** If the Subscriber's marriage ends due to legal divorce or legal separation, any qualified beneficiary whose group health benefits would otherwise end may elect to continue such benefits. The continuation can last for up to nine months, subject to the "When Continuation Ends" paragraph of this subsection.
- **If a Dependent Loses Eligibility:** If the Subscriber's Dependent child's group health benefits end due to his or her loss of dependent eligibility as defined in this Program, other than the Subscriber's coverage ending, he or she may elect to continue such benefits. However, such Dependent child must be a qualified beneficiary. The continuation can last for up to nine months, subject to the "When Continued Ends" paragraph of this subsection.
- **Election of Continuation:** To continue his or her group health benefits, the qualified beneficiary must give the benefits administrator written notice that he or she elects to continue benefits under the coverage. This must be done within 30 days of the date a qualified beneficiary receives notice of his or her continuation rights from the benefits administrator as described above or 30 days of the date the qualified beneficiary's group

health benefits end, if later. The Group must notify the Health Benefit Plan of the qualified beneficiary's election of continuation within 14 days of the election of continuation. Furthermore, the qualified beneficiary must pay the first month's premium in a timely manner.

The subsequent premiums must be paid to the benefits administrator by the qualified beneficiary, in advance, at the time and in the manner set forth by the benefits administrator. No further notice of when premiums are due will be given.

The monthly premium will be the total rate which would have been charged for the group health benefits had the qualified beneficiary stayed insured under this Program on a regular basis. It includes any amount that would have been paid by the Group. An additional administrative charge of up to five percent of the total premium charge may also be required by the Health Benefit Plan.

- Grace in Payment of Premiums: A qualified beneficiary's premium payment is timely if, with respect to the first payment after the qualified beneficiary elects to continue, such payment is made no later than 45 days after such election. In all other cases, the premium payment is timely if it is made within 31 days of the specified date.
- When Continuation Ends: A qualified beneficiary's continued group health benefits under this Program's ends on the first to occur of the following:
 - With respect to continuation upon the Subscriber's termination of employment or reduction of work hours, the end of the nine month period which starts on the date the group health benefits would otherwise end;
 - With respect to continuation upon the Subscriber's death, the Subscriber's legal divorce or legal separation, or the end of the Subscriber's covered Dependent's eligibility, the end of the nine month period which starts on the date the group health benefits would otherwise end;
 - With respect to the Subscriber's Dependent whose continuation is extended due to the Subscriber's entitlement to Medicare, the end of the nine month period which starts on the date the group health benefits would otherwise end;
 - The date coverage under this Program ends;
 - The end of the period for which the last premium payment is made;
 - The date he or she becomes covered under any other group health plan (as an employee or otherwise) which contains no limitation or exclusion with respect to any pre-existing condition of the qualified beneficiary other than a pre-existing condition exclusion or limitation which he or she satisfies under the Health Insurance Portability and Accountability Act of 1996, as first constituted or later amended;
 - The date the Subscriber and/or the Subscriber's eligible dependent become eligible for Medicare.

THE HEALTH BENEFIT PLAN'S RESPONSIBILITIES RELATIVE TO THE PROVISION OF CONTINUATION COVERAGE UNDER MINI-COBRA ARE LIMITED TO THOSE SET FORTH IN THIS SUBSECTION.

THE HEALTH BENEFIT PLAN IS NOT THE BENEFITS ADMINISTRATOR OR PLAN ADMINISTRATOR UNDER THIS PROGRAM OR FOR PURPOSES OF ERISA OR ANY OTHER FEDERAL OR STATE LAW. IN THE ABSENCE OF THE DESIGNATION OF ANOTHER PARTY AS BENEFITS ADMINISTRATOR OR PLAN ADMINISTRATOR, THE BENEFITS ADMINISTRATOR OR PLAN ADMINISTRATOR SHALL BE THE GROUP.

Conversion

If the Member and their Dependents become ineligible for coverage through the Member's Group Health Benefit Plan, they may apply for continuation of the Health Benefit Plan coverage in an appropriate non-group program. The Member must reside in the Service Area in order to be eligible for the non-group HMO program. The Member's application for this conversion coverage must be made to the Health Benefit Plan within 30 days of when the Member becomes ineligible for Group coverage. The benefits provided under the available non-group program may not be identical to the benefits under the Member's Group Program.

The conversion privilege is available to Members and:

- Their surviving Dependents, in the event of the Member's death;
- Their spouse, in the event of divorce; or
- Their child who has reached the Limiting Age for Dependents.

This conversion privilege is not available if the Member is terminated by the Health Benefit Plan for cause (such as deliberate misuse of an ID Card, significant misrepresentation of information that is given to the Health Benefit Plan or a Provider, or fraud).

If the Member needs more information regarding their conversion privilege, call Customer Services at the telephone number shown on their ID Card.

Should the Member choose continued coverage under COBRA (see above), they become eligible to convert to an individual, non-group plan at the end of the Member's COBRA coverage.

Confidentiality And Disclosure Of Medical Information

The Health Benefit Plan's privacy practices, as they apply to Members enrolled in this health benefit program, as well as a description of Member s' rights to access their personal health information which may be maintained by the Health Benefit Plan, are set forth in the Health Benefit Plan's HIPAA Notice of Privacy Practices (the "Notice"). The Notice is sent to each new Member upon initial enrollment in this Health Benefit Plan, and, subsequently, to all Member s if and when the Notice is revised.

By enrolling in this Health Benefit Plan, Members give consent to the Health Benefit Plan to receive, use, maintain, and/or release their medical records, claims-related information, health and related information for the purposes identified in the Notice to the extent permitted by applicable law. However, in certain circumstances, which are more fully described in the Notice, a specific Member Authorization may be required prior to the Health Benefit Plan's use or disclosure of Members' personal health information. Members should consult the Notice for detailed information regarding their privacy rights.

Member Id Card

Listed below are some important things to do and to remember about the Member's ID Card:

- Check the information on the Member's ID Card for completeness and accuracy.
- Check that the Member received one ID Card for each enrolled family member.
- Check that the name of the Primary Care Physician (or office) the Member selected is shown on the Member's ID Card. Also, please check the ID Card for each family member to be sure the information on it is accurate.
- Call Customer Service if the Member finds an error or loses their ID Card.
- Carry the Member ID Card at all times. The Member must present their ID Card whenever they receive Medical Care.

On the reverse side of the ID Card, the Member will find information about medical services, especially useful in Emergencies. There is even a toll-free number for use by Hospitals if the Member has questions about their coverage.

PROGRAM DESIGN FEATURES

This Program is different from traditional health insurance coverage. A Member still needs to choose a Primary Care Physician to provide routine Medical Care. However, the Member can access virtually all health care services in the Health Benefit Plan's network without a referral.

Referrals are required for X-ray, laboratory, spinal manipulation and physical/occupational therapy services. (Under certain circumstances, continuing care by a Non-Participating Provider will be treated in the same way as if the Provider were a Participating Provider. See **Continuity of Care** appearing later in the Benefit Booklet.)

It is important to remember the following:

- **Always call the Member's Primary Care Physician before receiving X-ray, laboratory,**

spinal manipulation and physical/occupational therapy services. Please schedule routine visits well in advance.

- **When the Members need Specialist Services**, they may go directly to a Participating Specialist for most services without a Referral. For X-ray, laboratory, spinal manipulation and physical/occupational therapy services, the Member must be Referred by their Primary Care Physician who will give the Member an electronic or written Referral.

Female Members may visit any participating obstetrical/gynecological Specialist without a Referral. This is true whether the visit is for preventive care, routine obstetrical/gynecological care or problem-related obstetrical/gynecological conditions. The Member's Primary Care Physician must obtain a Preapproval for Specialist Services provided by Non-Participating Providers.

- **The Member's Primary Care Physician is required to select a Designated Provider for certain Specialist Services.** Their Primary Care Physician will submit an electronic Referral to his/her Designated Provider for these outpatient Specialist Services:
 - Physical and occupational therapy;
 - Diagnostic Services for Members age five and older.
 - Laboratory and Pathology tests

Designated Providers usually receive a set dollar amount per Member per month (capitation) for their services based on the Primary Care Physicians that have selected them.

Outpatient services are not covered when performed by any Provider other than the Member's Primary Care Physician's Designated Provider.

Before selecting their Primary Care Physician, the Member may want to speak to the Primary Care Physician regarding his/her Designated Providers.

- **The Member's Primary Care Physician provides coverage 24 hours a day, 7 days a week.**
- **All continuing care as a result of Emergency Services** must be provided or Referred by the Member's Primary Care Physician or coordinated through Customer Service.
- **Some services must be authorized by the Member's Primary Care Physician or Participating Specialist or Preapproved by the Health Benefit Plan.** The Member's Primary Care Physician or Participating Specialist works with the Health Benefit Plan's Care Management and Coordination team during the Preapproval process. Services in this category include, but are not limited to: hospitalization; certain outpatient services; Skilled Nursing Facility services; and home health care. To access a complete list of services that require Preapproval, log onto www.amerihealth.com, or the Member can call Customer Service at the phone number shown on their ID Card to have the list mailed to them. A Member has the right to appeal any decisions through the **Complaint and Grievance Appeal Process**. Instructions for the appeal will be described in the denial notifications.
- **All services must be received from Participating Providers** unless Preapproved by the Health Benefit Plan, or except in cases requiring Emergency Services or Urgent Care while outside the Service Area.

- See Access To Primary, Specialist, And Hospital Care in this section for procedures for obtaining Preapproval for use of a Non-Participating Provider. Use the Provider Directory to find out more about the individual Providers, including Hospitals and Primary Care Physicians and Referred Provider, Participating Specialist and their affiliated Hospitals. It includes a foreign language index to help the Member locate a Provider who is fluent in a particular language. The directory also lists whether the Provider is accepting new patients.
- **To change the Member's Primary Care Physician**, call Customer Service at the telephone number shown on their ID Card.
- **Medical Technology Assessment is performed by the Health Benefit Plan.** Technology assessment is the review and evaluation of available clinical and scientific information from expert sources. These sources include and are not limited to articles published by governmental agencies, national peer review journals, national experts, clinical trials, and manufacturer's literature. The Health Benefit Plan uses the technology assessment process to assure that new drugs, procedures or devices are safe and effective before approving them as a Covered Service. When new technology becomes available or at the request of a practitioner or Member, the Health Benefit Plan researches all scientific information available from these expert sources. Following this analysis, the Health Benefit Plan makes a decision about when a new drug, procedure or device has been proven to be safe and effective and uses this information to determine when an item becomes a Covered Service.
- **Prescription Drugs are covered under this Program.** Under this Program, Prescription Drugs, including medications and biologicals, are Covered Services or Supplies when ordered during the Member's Inpatient Hospital stay. In addition, if the Member does not have Prescription Drug coverage under a Health Benefit Plan Prescription Drug benefit, this Program will provide coverage for insulin and oral agents, as well as Prescription Drugs used in the treatment of Autism Spectrum Disorders, when the Member is not an Inpatient.

Groups may choose to provide additional Prescription Drug coverage for Prescription Drugs for use when a Member is not an Inpatient. The benefits and cost sharing will vary depending upon the program chosen. That coverage may also include a Drug Formulary. If so, the Member will be given a copy of the Drug Formulary, and the coverage may exclude, or require the Member to pay higher Copayments for certain Prescription Drugs. To obtain a copy of the Drug Formulary, the Member should call Customer Service at the phone number shown on their ID Card.

Prescription Drug benefits do not cover over-the-counter drugs except insulin.

Additionally, Prescription Drug benefits are subject to quantity level limits as conveyed by the Food and Drug Administration ("FDA") or the Health Benefit Plan's Pharmacy and Therapeutics Committee.

The Health Benefit Plan, for all Prescription Drug benefits, requires Preapproval of a small number of drugs approved by the FDA for use in specific medical conditions. Where Preapproval or quantity limits are imposed, The Member's Physician may request an exception for coverage by providing documentation of Medical Necessity. The Member may obtain information about how to request an exception by calling Customer Service at the phone number on their ID Card.

The Member, or their Physician acting on the Member's behalf, may appeal any denial of

benefits or application of higher cost sharing through the ***Complaint and Grievance Appeal Process*** described later in this Benefit Booklet.

Disease Management And Decision Support

Disease Management and Decision Support programs help Members to be effective partners in their health care by providing information and support to Members with certain chronic conditions as well as those with everyday health concerns. Disease Management is a systematic, population-based approach that involves identifying Members with certain chronic diseases, intervening with specific information or support to follow PCP's and Participating Professional Provider's treatment plan, and measuring clinical and other outcomes. Decision Support involves identifying Members who may be facing certain treatment option decisions and offering them information to assist in informed, collaborative decisions with their PCP's and Participating Professional Provider's. Decision Support also includes the availability of general health information, personal health coaching, PCP's and Participating Professional Provider's information, or other programs to assist in health care decisions.

Disease Management interventions are designed to help Members manage their chronic condition in partnership with their PCP's and Participating Professional Provider's. Disease Management programs, when successful, can help such Members avoid long term complications, as well as relapses that would otherwise result in Hospital or Emergency room care. Disease Management programs also include outreach to Members to obtain needed preventive services, or other services recommended for chronic conditions. Information and support may occur in the form of telephonic health coaching, print, audio library or videotape, or Internet formats.

The Health Benefit Plan will utilize medical information such as claims data to operate the Disease Management or Decision Support program, to identify Members with chronic disease for example, to predict which Members would most likely benefit from these services, and to communicate results to Member's treating PCP's and Participating Professional Provider's. The Health Benefit Plan will decide what chronic conditions are included in the Disease Management or Decision Support program.

Participation by a Member in Disease Management or Decision Support programs is voluntary. A Member may continue in the Disease Management or Decision Support program until any of the following occurs:

- The Member notifies the Health Benefit Plan that they decline participation; or
- The Health Benefit Plan determines that the program, or aspects of the program, will not continue;
- The Member's Employer decides not to offer the programs.

Discretionary Authority

The Health Benefit Plan retains discretionary authority to interpret this Program and the facts presented to make benefit determinations. Benefits under this Program will be provided only if the Health Benefit Plan determines in its discretion that the Member is entitled to them.

ACCESS TO PRIMARY, SPECIALIST, AND HOSPITAL CARE

Direct Access To Certain Care

A Member does not need a Referral from his/her Primary Care Physician for the following Covered Services:

- Emergency Services;
- Care from a participating obstetrical/gynecological Specialist;
- Mammograms;
- Mental Health Care, Serious Mental Illness Health Care and Alcohol or Drug Abuse and Dependency;
- Inpatient Hospital Services that require Preapproval. This does not include a maternity Inpatient Admission;
- Dialysis services performed in a Participating Facility Provider or by a Participating Professional Provider;
- Nutrition Counseling for Weight Management; and
- Diabetic Education Program.
- Most health care from Participating Providers.

NOTE: Referrals from the Member's Primary Care Physician are required for X-ray, laboratory, spinal manipulation and physical/occupational therapy services

How To Obtain A Provider Referral

The Member should always consult their Primary Care Physician first when they need X-ray, laboratory, spinal manipulation and physical/occupational therapy services.

If the Member's Primary Care Physician refers them to a Referred Provider or facility just follow these steps:

- The Member's Primary Care Physician will submit an electronic Referral indicating the services authorized.
- The Member's Referral is valid for 90 days from issue date as long as they are a Member.
- This form is sent electronically to the Referred Provider or facility before the services are performed. Only services authorized on the Referral form will be covered.
- Any additional Medically Necessary treatment recommended by the Referred Provider will require another written Referral from the Member's Primary Care Physician if the recommended treatment is for x-ray, laboratory, spinal manipulation or physical/occupational therapy services.
- The Member must be enrolled at the time they receive services from a Referred Provider or Non-Participating Provider in order for services to be covered.

See the ***Preapproval for Non-Participating Providers*** section of the Benefit Booklet for information regarding services provided by Non-Participating Providers.

How To Obtain A Standing Referral

If the Member has a life-threatening, degenerative or disabling disease or condition, they may receive a Standing Referral to a Participating Professional Provider to treat that disease or condition. The Referred Provider will have clinical expertise in treating the disease or condition. A Standing Referral is granted upon review of a treatment plan by the Health Benefit Plan and in consultation with the Member's Primary Care Physician.

Follow these steps to initiate a Standing Referral request.

- Call Customer Service at the telephone number shown on the Member's ID Card. (Or, the

Member may ask their Primary Care Physician to call Provider Services or Care Management and Coordination to obtain a “Standing Referral Request” form.)

- A “Standing Referral Request” form will be mailed or faxed to the requestor.
- The Member must complete a part of the form and their Primary Care Physician will complete the clinical part. The Member's Primary Care Physician will then send the form to Care Management and Coordination.
- Care Management and Coordination will either approve or deny the request for the Standing Referral. The Member, their Primary Care Physician and the Referred Provider will receive notice of the approval or denial in writing. The notice will include the time period for the Standing Referral.

If the Standing Referral is Approved

If the request for the Standing Referral to a Referred Provider is approved, the Referred Provider, the Member, and the Primary Care Physician will be informed in writing by Care Management and Coordination. The Referred Provider must agree to abide by all the terms and conditions that the Health Benefit Plan has established with regard to Standing Referrals. This includes, but is not limited to, the need for the Referred Provider to keep the Member's Primary Care Physician informed of their condition. When the Standing Referral expires, the Member or their Primary Care Physician will need to contact Care Management and Coordination and follow the steps outlined above to see if another Standing Referral will be approved.

If the Standing Referral is Denied

If the request for a Standing Referral is denied, the Member and their Primary Care Physician will be informed in writing. The Member will be given information on how to file a formal Complaint, if they so desire.

Designating A Participating Specialist As A Member's Primary Care Physician

If the Member has a life-threatening, degenerative or disabling disease or condition, they may have a Participating Specialist named to provide and coordinate both their primary and specialty care. The Participating Specialist will be a Physician with clinical expertise in treating their disease or condition. It is required that the Participating Specialist agrees to meet the Program's requirements to function as a Primary Care Physician.

Follow these steps to initiate a request for a Member's Participating Specialist to be their Primary Care Physician.

- Call Customer Service at the telephone number shown on the Member's ID Card. (Or, the Member may ask their Primary Care Physician to call Provider Services or Care Management and Coordination to initiate the request.)
- A “Request for Specialist to Coordinate All Care” form will be mailed or faxed to the requestor.
- The Member must complete a part of the form and their Primary Care Physician will complete the clinical part. The Member's Primary Care Physician will then send the form to Care Management and Coordination.
- The Medical Director will speak directly with the Member's Primary Care Physician and the selected Participating Specialist to apprise all parties of the primary services that the Participating Specialist must be able to provide in order to be designated as a Member's Primary Care Physician. If Care Management and Coordination approves the request, it will be sent to the Provider Service area. That area will confirm that the Participating Specialist meets the same credentialing standards that apply to Primary Care Physicians. (At the same time, the Member will be given a Standing Referral to see the Participating Specialist.)

If the Participating Specialist as Primary Care Physician Request is Approved

If the request for the Participating Specialist to be the Member's Primary Care Physician is approved, the Participating Specialist, the Member's Primary Care Physician and the Member will be informed in writing by Care Management and Coordination.

If the Participating Specialist as Primary Care Physician Request is Denied

If the request to have a Participating Specialist designated to provide and coordinate the Member's primary and specialty care is denied, the Member and their Primary Care Physician will be informed in writing. The Member will be given information on how to file a formal Complaint, if they so desire.

Changing A Member's Primary Care Physician

If a Member wishes to transfer to a different Primary Care Physician, a request can be made at any time, by:

- submitting in writing, calling the telephone number shown on the back of the Member ID Card, to the HMO's Customer Service Department, or
- logging into the website at www.amerihalthexpress.com selecting Account Settings and Member Information.

The change will become effective on the earlier of:

- 14 days after the request is received (includes weekends), or
- the first day of the upcoming month.

Exceptions: However, changes will take effect on the first of the current month:

- when the Member did not make a PCP selection at the time of enrollment, or
- if the Member's PCP is no longer a Participating Provider.

If the participating status of the Member's Primary Care Physician changes, the Member will be notified in order to select another Primary Care Physician.

The Member must remember to have their medical records transferred to their new Primary Care Physician.

Changing A Member's Referred Provider

The Member may change the Referred Provider to whom they have been referred by their Primary Care Physician or for whom the Member has a Standing Referral. To do so, the Member asks their Primary Care Physician to recommend another Referred Provider before services are performed. Or, the Member may call Customer Service at the telephone number shown on their ID Card. Remember, only services authorized on the Referral form will be covered.

If the participating status of a Referred Provider the Member regularly visit changes, they will be notified to select another Referred Provider.

Continuity Of Care

The Member has the option, if their Physician agrees to be bound by certain terms and conditions as required by the Health Benefit Plan, of continuing an ongoing course of treatment with that Physician. This continuation of care shall be offered through the current period of active treatment for an acute condition or through the acute phase of a chronic condition or for up to 90 calendar days from the notice that the status of the Member's Physician has changed

or the Member's Effective Date of Coverage when:

- The Member's Physician is no longer a Participating Provider because the Health Benefit Plan terminates its contract with that Physician, for reasons other than cause; or
- The Member first enrolls in the Program and is in an ongoing course of treatment with a Non-Participating Provider.

If the Member is in their second or third trimester of pregnancy at the time of their enrollment or termination of a Participating Provider's contract, the continuity of care with that Physician will extend through post-partum care related to the delivery.

The Member should follow these steps to initiate their continuity of care:

- Call Customer Service at the number on the Member's ID Card and ask for a "Request for Continuation of Treatment" form.
- The "Request for Continuation of Treatment" form will be mailed or faxed to the Member.
- The Member must complete the form and send it to Care Management and Coordination at the address that appears on the form.

If the Member's Physician agrees to continue to provide their ongoing care, the Physician must also agree to be bound by the same terms and conditions as apply to Participating Providers.

The Member will be notified when the participating status of their Primary Care Physician changes so that they can select another Primary Care Physician.

Preapproval For Non-Participating Providers

The Health Benefit Plan may approve payment for Covered Services provided by a Non-Participating Provider if the Member has:

- First sought and received care from a Participating Provider in the same American Board of Medical Specialties (ABMS) recognized specialty as the Non-Participating Provider that the Member has requested. (The Member's Primary Care Physician is required to obtain Preapproval from the Health Benefit Plan for services provided by a Non-Participating Provider.)
- Been advised by the Participating Provider that there are no Participating Providers that can provide the requested Covered Services; and
- Obtained authorization from the Health Benefit Plan prior to receiving care. The Health Benefit Plan reserves the right to make the final determination whether there is a Participating Provider that can provide the Covered Services.

If the Health Benefit Plan approves the use of a Non-Participating Provider, the Member will not be responsible for the difference between the Provider's billed charges and the Health Benefit Plan's payment to the Provider but the Member will be responsible for applicable cost-sharing amounts. If the Member receives any bills from the Provider, they need to contact Customer Service at the telephone number on their ID card. When the Member notifies the Health Benefit Plan about these bills, the Health Benefit Plan will resolve the balance billing.

Hospital Admissions

- If the Member needs hospitalization or outpatient Surgery, the Member's Primary Care Physician or Participating Specialist will arrange admission to the Hospital or outpatient surgical facility on their behalf.
- The Member's Primary Care Physician or Participating Specialist will coordinate the Preapproval for their outpatient Surgery or Inpatient admission with the Health Benefit Plan, and the Health Benefit Plan will assign a Preapproval number. Preapproval is not required for a maternity Inpatient

Admission.

- The Member does not need to receive an electronic Referral from their Primary Care Physician for Inpatient Hospital Services that require Preapproval.

Upon receipt of information from the Member's Primary Care Physician or Participating Specialist, Care Management and Coordination will evaluate the request for hospitalization or outpatient Surgery based on clinical criteria guidelines. Should the request be denied after review by a Health Benefit Plan Medical Director, the Member, their Primary Care Physician or their Participating Specialist has a right to appeal this decision through the Grievance appeal process.

During an Inpatient hospitalization, Care Management and Coordination is monitoring the Member's Hospital stay to assure that a plan for their discharge is in place. This is to make sure that the Member has a smooth transition from the Hospital to home, or to another setting such as a Skilled Nursing or Rehabilitation Facility. A Health Benefit Plan Case Manager will work closely with the Member's Primary Care Physician or Participating Specialist to help with their discharge and if necessary, arrange for other medical services.

Should the Member's Primary Care Physician or Participating Specialist agree with the Health Benefit Plan that Inpatient hospitalization services are no longer required, the Member will be notified in writing of this decision. Should the Member decide to remain hospitalized after this notification, the Hospital has the right to bill the Member after the date of the notification. The Member may appeal this decision through the Grievance appeal process.

Recommended Plan Of Treatment

The Member agrees, when enrolling in this Program, to receive care according to the recommendations of their Primary Care Physician or Participating Specialist. The Member has the right to give their informed consent before the start of any procedure or treatment. The Member also has the right to refuse any drugs, treatment or other procedure offered to them by providers in the Health Benefit Plan's network, and to be informed by their Physician of the medical consequences of their refusal of any drugs, treatment, or procedure.

The Health Benefit Plan and the Member's Primary Care Physician will make every effort to arrange a professionally acceptable alternative treatment. However, if the Member still refuses the recommended Plan of Treatment, the Health Benefit Plan will not be responsible for the costs of further treatment for that condition and the Member will be so notified. The Member may use the Grievance appeal process to have their case reviewed, if they so desire.

Special Circumstances

In the event that Special Circumstances result in a severe impact to the availability of Providers and services, to the procedures required for obtaining benefits for Covered Services under this Program described in this Benefit Booklet (For example, obtaining Referrals, use of Participating Providers), or to the administration of this Program by the Health Benefit Plan, the Health Benefit Plan may, on a selective basis, waive certain procedural requirements of this Program. Such waiver shall be specific as to the requirements that are waived and shall last for such period of time as is required by the Special Circumstances as defined below.

The Health Benefit Plan shall make a good faith effort to arrange for an alternative method of providing coverage. In such event, the Health Benefit Plan shall provide access to Covered Services in so far as practical, and according to its best judgment. Neither the Health Benefit Plan nor Providers in the Health Benefit Plan's network shall incur liability or obligation for delay, or failure to provide or arrange for Covered Services if such failure or delay is caused by Special

Circumstances.

Special Circumstances, as recognized in the community and by the Health Benefit Plan and appropriate regulatory authority, are extraordinary circumstances not within the control of the Health Benefit Plan, including but not limited to:

- A major disaster;
- An epidemic;
- A pandemic;
- Riot;
- Civil insurrection; or
- The complete or partial destruction of facilities.

Member Liability

Except when certain cost sharing is specified in this Benefit Booklet or on the ***Schedule of Covered Services***, the Member is not liable for any charges for Covered Services when these services have been provided or Referred by their Primary Care Physician and they are eligible for such benefits on the date of service.

Right To Recover Payments Made In Error

If the Health Benefit Plan should provide coverage for any contractually excluded services through inadvertence or error, the Health Benefit Plan maintains the right to seek recovery of such payment from the Provider or Member to whom such payment was made.

INFORMATION ABOUT PROVIDER REIMBURSEMENT

The Health Benefit Plan reimbursement programs for health care providers are intended to encourage the provision of quality, cost-effective care for our Members. Set forth below is a general description of the Health Benefit Plan reimbursement programs, by type of participating health care provider. These programs vary by state.

Please note that these programs may change from time to time, and the arrangements with particular providers may be modified as new contracts are negotiated. If after reading this material the Member has any questions about how their health care provider is compensated, please speak with them directly or contact Customer Service.

Professional Providers

Primary Care Physicians: Most Primary Care Physicians (PCPs) are paid in advance for their services, receiving a set dollar amount per Member, per month for each Member selecting that PCP. This is called a capitation payment and it covers most of the care delivered by the PCP. Covered Services not included under capitation are paid fee-for-service according to the Health Benefit Plan fee schedule. Many Pennsylvania based PCPs are also eligible to receive additional payments for meeting certain medical quality, patient service and other performance standards. In Pennsylvania, the PCP Quality Incentive Payment System (QIPS) includes incentives for practices that have extended hours and submit encounter and referral data electronically, as well as an incentive that is based on the extent to which a PCP prescribes generic drugs (when available) relative to similar PCPs. In addition, the Practice Quality Assessment Score focuses on preventive care and other established clinical interventions.

Participating Specialist: Most Participating Specialist are paid on a fee-for-service basis, meaning that payment is made according to the Health Benefit Plan's fee schedule for the specific medical services that the Participating Specialist performs. Obstetricians are paid global fees that cover most of their professional services for prenatal care and for delivery.

Designated Providers: For a few specialty services, PCPs are required to select a Designated Provider to which they refer all of the Health Benefit Plan's patients for those services. The specialist services for which PCPs must select a Designated Provider vary by state and could include, but are not limited to, radiology and Physical Therapy. Designated Providers usually are paid a set dollar amount per Member per month (capitation) for their services based on the PCPs that have selected them. Before selecting a PCP, Members may want to speak to the PCP regarding the Designated Provider that PCP has chosen.

Hospital-Based Provider: When the Member receives Covered Services from a Hospital-Based Provider while they are an Inpatient at a Participating Hospital or other Participating Facility Provider and are being treated by a Participating Professional Provider, the Member will receive benefits for the Covered Services provided by the Non-Participating Hospital-Based Provider. A Hospital-Based Provider can bill the Member directly for their services, for either the Provider's charges or amounts in excess of the Health Benefit Plan's payment to the Hospital-Based Providers (That is, "balance billing"). If the Member receives any bills from the Provider, the Member needs to contact Customer Services at the telephone number on the ID card. When the Member notifies the Health Benefit Plan about these bills, the Health Benefit Plan will resolve the balance billing.

Institutional Providers

Hospitals: For most inpatient medical and surgical Covered Services, Hospitals are paid per diem rates, which are specific amounts paid for each day a Member is in the Hospital. These rates usually vary according to the intensity of services provided. Some Hospitals are also paid case rates, which are set dollar amounts paid for a complete hospital stay related to a specific procedure or diagnosis, (For example, transplants).

For most outpatient and Emergency Covered Services and procedures, most Hospitals are paid specific rates based on the type of service performed. Hospitals may also be paid a global rate for certain outpatient Covered Services (For example, lab and radiology) that includes both the facility and Physician payment. For a few Covered Services, Hospitals are paid based on a percentage of billed charges. Most Hospitals are paid through a combination of the above payment mechanisms for various Covered Services.

Some Hospitals participate in a quality incentive program. The program provides increased reimbursement to these Hospitals when they meet specific quality and other criteria, including "Patient Safety Measures." Such patient safety measures are consistent with recommendations by The Leap Frog Group, Joint Commission on Accreditation of Healthcare Organizations (JCAHO), and the Agency for Health Care Research and Quality (AHRQ) and are designed to help reduce medical and medication errors. Other criteria are directed at improved patient outcomes and electronic submissions. This incentive program is expected to evolve over time.

Skilled Nursing Homes, Rehabilitation Hospitals, and other care facilities: Most Skilled Nursing Facilities and other special care facilities are paid per diem rates, which are specific amounts paid for each day a Member is in the facility. These amounts may vary according to the intensity of services provided.

Ambulatory Surgical Centers (ASCs)

Most ASCs are paid specific rates based on the type of service performed. For a few Covered Services, some ASCs are paid based on a percentage of billed charges.

Integrated Delivery Systems: In a few instances, we have global payment arrangements with integrated Hospital/Physician organizations called Integrated Delivery Systems (IDS). In these cases the IDS provides or arranges for some of the Hospital, Physician and ancillary Covered Services provided to some of our Members who select PCPs which are employed by or participate with the IDS. The IDS is paid a global fee to cover all such Covered Services, whether provided by the IDS or other Providers. These IDSs are therefore “at risk” for the cost of these Covered Services. Some of these IDSs may provide incentives to their IDS-affiliated Professional Providers for meeting certain quality, service or other performance standards.

Physician Group Practices and Physician Associations

Certain Physician group practices and independent Physician associations (IPAs) employ or contract with individual Physicians to provide medical Covered Services. These groups are paid as outlined above. These groups may pay their affiliated Physicians a salary and/or provide incentives based on production, quality, service, or other performance standards. In Pennsylvania, we have entered into a joint venture with an IPA. This IPA is paid a global fee to cover the cost of all Covered Services, including Hospital, professional and ancillary Covered Services provided to Members who choose a PCP in this IPA. This IPA is therefore “at risk” for the cost of these Covered Services. This IPA provides incentives to its affiliated Physicians for meeting certain quality, service and performance standards.

Ancillary Service Providers

Some ancillary service providers, such as Durable Medical Equipment and Home Health Care Providers, are paid fee-for-service payments according to the Health Benefit Plan fee schedule for the specific medical services performed. Other ancillary service providers, such as those providing laboratory, dental or vision Covered Services, are paid a set dollar amount per Member per month (capitation). Capitated ancillary service vendors are responsible for paying their contracted providers and do so on a fee-for-service basis.

Mental Health/ Alcohol or Drug Abuse and Dependency

A mental health/Alcohol or Drug Abuse and Dependency (“behavioral health”) management company administers most of the behavioral health benefits, provides a network of Participating Behavioral Specialists and processes the related claims. The behavioral health management company is paid a set dollar amount per Member per month (capitation) for each Member and is responsible for paying its contracted providers on a fee-for-service basis. The contract with the behavioral health management company includes performance-based payments related to quality, provider access, service, and other such parameters.

Pharmacy

A pharmacy benefits management company (PBM), which is affiliated with the HMO, administers the Prescription Drug benefits, and is responsible for providing a network of Participating Pharmacies and processing pharmacy claims. The PBM also negotiates price discounts with pharmaceutical manufacturers and provides drug utilization and quality reviews. Price discounts may include rebates from a drug manufacturer based on the volume purchased. The HMO anticipates that it will pass on a high percentage of the expected rebates it receives from its PBM through reductions in the overall cost of Prescription Drug benefits. Under most benefit plans, Covered Drugs Or Supplies are subject to the Member's cost-sharing.

UTILIZATION REVIEW PROCESS AND CRITERIA

Utilization Review Process

Two conditions of this Program are that in order for a health care service to be covered or

payable, the service must be:

- Eligible for coverage under this Program; and,
- Medically Necessary.

To assist the Health Benefit Plan in making coverage determinations for certain requested health care services, the Health Benefit Plan uses established Health Benefit Plan medical policies and medical guidelines based on clinically credible evidence to determine the Medical Necessity of the requested services. The appropriateness of the requested setting in which the services are to be performed is part of this assessment. The process of determining the Medical Necessity of requested health care services for coverage determinations based on the benefits available under a Member's benefit plan is called utilization review.

It is not practical to verify Medical Necessity on all procedures on all occasions, therefore certain procedures may be determined by the Health Benefit Plan to be Medically Necessary and automatically approved based on the accepted Medical Necessity of the procedure itself, the diagnosis reported or an agreement with the performing Provider. An example of such automatically approved services is an established list of services received in an emergency room which have been approved by the Health Benefit Plan based on the procedure meeting Emergency criteria and the severity of diagnosis reported (For example, rule out myocardial infarction, or major trauma). Other requested services, such as certain elective inpatient or outpatient procedures may be reviewed on a procedure specific or setting basis.

Utilization review generally includes several components which are based on when the review is performed. When the review is required before a service is performed (pre-service review) it is called Precertification (applicable when the Member's benefit plan provides benefits for services performed without the required Referral or by non-Participating Providers (That is, point-of-service coverage) or Preapproval. Reviews occurring during a Hospital stay are called concurrent reviews. Those reviews occurring after services have been performed (post-service reviews) are called retrospective reviews. The Health Benefit Plan follows applicable state and federally required standards for the timeframes in which such reviews are to be performed.

Generally, where a requested service is not automatically approved and must undergo Medical Necessity review, nurses perform the initial case review and evaluation for plan coverage approval using the Health Benefit Plan's medical policies, established guidelines and evidence-based clinical criteria and protocols; however only a Medical Director may deny coverage for a procedure based on Medical Necessity. The evidence-based clinical protocols evaluate the Medical Necessity of specific procedures and the majority is computer-based. Information provided in support of the request is entered into the computer-based system and evaluated against the clinical protocols. Nurses apply applicable benefit plan policies and procedures, taking into consideration the individual Member's condition and applying sound professional judgment. When the clinical criteria are not met, the given service request is referred to a Medical Director for further review for approval or denial. Independent medical consultants may also be engaged to provide clinical review of specific cases or for specific conditions. Should a procedure be denied for coverage based on lack of Medical Necessity a letter is sent to the requesting Provider and Member in accordance with applicable law.

The Health Benefit Plan's utilization review program encourages peer dialogue regarding coverage decisions based on Medical Necessity by providing Physicians with direct access to plan Medical Directors to discuss coverage of a case. The nurses, Medical Directors, other Professional Providers, and independent medical consultants who perform utilization review services are not compensated or given incentives based on their coverage review decisions.

Medical Directors and nurses are salaried, and contracted external physician and other professional consultants are compensated on a per case reviewed basis, regardless of the coverage determination. The Health Benefit Plan does not specifically reward or provide financial incentives to individuals performing utilization review services for issuing denials of coverage. There are no financial incentives for such individuals which would encourage utilization review decisions that result in underutilization.

Precertification or Preapproval

When required and applicable, Precertification or Preapproval evaluates the Medical Necessity, including the appropriateness of the setting, of proposed services for coverage under the Member's benefit plan. Examples of these services include certain planned or elective inpatient admissions and selected outpatient procedures according to the Member's benefit plan. Where required by the Member's benefit plan, Preapproval is initiated by the Provider and Precertification is initiated by the Member.

Where Precertification or Preapproval is required, coverage of the proposed procedure is contingent upon the review being completed and receipt of the approval certification. Coverage penalties may be applied when Precertification is required for a procedure but is not obtained. If the Primary Care Physician or Participating Specialist fails to obtain Preapproval when required, and provides Covered Services or Referrals without obtaining such Preapproval, the Member will not be responsible for payment.

While the majority of services requiring Precertification or Preapproval are reviewed for medical appropriateness of the requested procedure setting (For example, inpatient, short procedure unit, or outpatient setting), other elements of the Medical Necessity of the procedure may not always be evaluated and may be automatically approved based on the procedure or diagnosis for which the procedure is requested or an agreement with the performing Provider. Precertification or Preapproval is not required for Emergency services and is not performed where an agreement with the Participating Provider does not require such review.

The following are general examples of current Precertification or Preapproval requirements under benefit plans; however these requirements vary by benefit plan and state and are subject to change

- Hysterectomy;
- Nasal surgery procedures;
- Bariatric surgery; and
- Potentially cosmetic or Experimental/Investigative Services.

Concurrent Review

Concurrent review may be performed while services are being performed. This may occur during an Inpatient Admission and typically evaluates the expected and current length of stay to determine if continued hospitalization is Medically Necessary. When performed, the review assesses the level of care provided to the Member and coordinates discharge planning. Concurrent review continues until the patient is discharged. Not all inpatient stays are reviewed concurrently. Concurrent review is generally not performed where an inpatient facility is paid based on a per case or diagnosis-related basis, or where an agreement with the facility does not require such review.

Retrospective Review

Retrospective review occurs after services have been provided. This may be for a variety of reasons, including the Health Benefit Plan not being notified of a Member's inpatient admission

until after discharge or where medical charts are unavailable at the time of a required concurrent review. Certain services are only reviewed on a retrospective basis.

Prenotification

In addition to the standard utilization reviews outlined above, the Health Benefit Plan also may determine coverage of certain procedures and other benefits available to Members through Prenotification, as required by the Members' benefit plan, and discharge planning.

Prenotification is advance notification to the Health Benefit Plan of an inpatient admission or outpatient service where no Medical Necessity review (Precertification or Preapproval) is required, such as maternity admissions/deliveries. Prenotification is primarily used to identify Members for concurrent review needs, to ascertain discharge planning needs proactively, and to identify who may benefit from case management programs.

Discharge Planning

Discharge planning is performed during an inpatient admission and is used to identify and coordinate a Member's needs and benefit plan coverage following the Inpatient Admission, such as covered home care, ambulance transport, acute rehabilitation, or Skilled Nursing Facility placement. Discharge planning involves the Health Benefit Plan's authorization of post-Hospital Covered Services and identifying and referring Members to disease management or case management benefits.

Selective Medical Review

In addition to the foregoing requirements, the Health Benefit Plan reserves the right, under its utilization and quality management programs, to perform a medical review prior to, during or following the performance of certain Covered Services ("selective medical review") that are otherwise not subject to review as described above. In addition, the Health Benefit Plan reserves the right to waive medical review for certain Covered Services for certain Providers, if the Health Benefit Plan determines that those Providers have an established record of meeting the utilization and/or quality management standards for those Covered Services. Regardless of the outcome of the Health Benefit Plan's selective medical review, there are no coverage penalties applied to the Member.

CLINICAL CRITERIA, GUIDELINES AND RESOURCES

The following guidelines, clinical criteria and other resources are used to help make Medical Necessity coverage decisions:

Clinical Decision Support Criteria

Clinical decision support criteria are an externally validated and computer-based system used to assist the Health Benefit Plan in determining Medical Necessity. These evidence-based, clinical decision support criteria are nationally recognized and validated. Using a model based on evaluating intensity of service and severity of illness, these criteria assist the Health Benefit Plan's clinical staff in evaluating the Medical Necessity and appropriateness of coverage based on a Member's specific clinical needs. Clinical decision support criteria help promote consistency in the Health Benefit Plan's plan determinations for similar medical issues and requests, and reduce practice variation among the Health Benefit Plan's clinical staff to minimize subjective decision-making.

Clinical decision support criteria may be applied for Covered Services including, but not limited to the following:

- Some elective surgeries—settings for inpatient and outpatient procedures (For example, hysterectomy and sinus surgery);
- Inpatient Hospital Services;
- Inpatient rehabilitation care;
- Home Health Care;
- Durable Medical Equipment; and
- Skilled Nursing Facility Services.

Centers for Medicare and Medicaid Services (CMS) Guidelines

These are a set of guidelines adopted and published by CMS for coverage of services by Medicare and Medicaid for persons who are eligible and have health coverage through Medicare or Medicaid.

The Health Benefit Plan's Medical Policies

These are the Health Benefit Plan's internally developed set of policies which document the coverage and conditions for certain medical/surgical procedures and ancillary services.

The Health Benefit Plan's medical policies may be applied for Covered Services including, but not limited to the following:

- Ambulance;
- Infusion;
- Speech Therapy;
- Occupational Therapy;
- Durable Medical Equipment; and
- Review of potential cosmetic procedures.

The Health Benefit Plan's Internally Developed Guidelines

These are a set of guidelines developed specifically by the Health Benefit Plan, as needed, with input by clinical experts based on accepted practice guidelines within the specific fields and reflecting the Health Benefit Plan's medical policies for benefit plan coverage.

DELEGATION OF UTILIZATION REVIEW ACTIVITIES AND CRITERIA

The Health Benefit Plan delegates its utilization review process to its affiliate, Independence Healthcare Management, a state-licensed utilization review entity. In certain instances, the Health Benefit Plan has delegated certain utilization review activities, which may include Preapproval, Precertification, concurrent review, and case management, to integrated delivery systems and/or entities with an expertise in medical management of a certain membership population (such as, neonates/premature infants) or a type of benefit or service (such as behavioral health or radiology). In such instances, a formal delegation and oversight process is established in accordance with applicable law and nationally-recognized accreditation standards. In such cases, the delegate's utilization review criteria are generally used, with the Health Benefit Plan's approval.

Utilization Review and Criteria for Behavioral Health Services

Utilization Review activities for behavioral health services (mental health and Alcohol or Drug Abuse and Dependency services) have been delegated by the Health Benefit Plan to its contracted behavioral health management company which administers the behavioral health benefits for the majority of the Health Benefit Plan's Members.

COORDINATION OF BENEFITS

If a Member or any of their Dependents have other group health insurance coverage which provides benefits for Hospital, medical, or other health expenses, the Member's benefit payments may be subject to Coordination of Benefits (COB). COB refers to the administration of health benefit coverage when a person is covered by more than one group plan. COB provisions:

- Determine which health plan will be the primary payor and which will be the secondary payor;
- Regulate benefit payments so that total payments by all insurers do not exceed total charges for Covered Services;
- Apply to all Member benefits, however, the Health Benefit Plan will provide access to Covered Services first and apply the applicable COB rules later;
- Allow the Health Benefit Plan to recover any expenses paid in excess of its obligation as a non-primary payor; and
- Apply to services for the treatment of injury resulting from the maintenance or use of a motor vehicle.

Coordination of Benefits Administration

Determination will be made as to whether the Member is also entitled to receive benefits under any other group health care insurance plan or under any governmental program for which any periodic payment is made by or for the Member, with the exception of student accident plans, group hospital indemnity plans paying \$100 per day or less and, if provided under the Member's Program, coverage for Prescription Drug or vision expenses. If so, the Health Benefit Plan shall determine whether the other insurer or government plan has primary responsibility for payment. In these cases, the payment under this Program may be reduced or eliminated. The Health Benefit Plan will provide access to Covered Services first and determine liability later.

If it is determined that this Program is the secondary plan, the Health Benefit Plan has the right to recover the expense already paid in excess of this Program's liability as the secondary plan. In such cases, only care provided or Referred by the Member's Primary Care Physician will be covered by this Program as secondary. The Member is required to furnish information and to take such other action as is necessary to assure the rights of the Health Benefit Plan. In determining whether this Program or another group health plan has primary liability the following will apply.

- If another plan under which an individual has coverage with does not have a COB provision, that plan will be primary and this Program will be secondary. In order for services to be covered by this Program as secondary, the Member's care must be provided or Referred by their Primary Care Physician.
- If the other plan does include a Coordination of Benefits or non-duplication provision:
 - The plan which covers an individual as a Subscriber (meaning not a dependent) will be primary. The plan which covers the individual as a dependent will be secondary;
 - If there is a court decree which establishes financial responsibility for the health care expenses of the dependent child, the plan which covers the child as a dependent of the parent with such financial responsibility will be the primary plan;
 - Where both plans cover a child as a dependent, the plan of the parent whose date of birth (excluding year) occurs earlier in the calendar year will be primary (the Birthday Rule). If both parents have the same birthday, the plan covering the parent longer will be

- primary. If the other plan does not include this provision, the provisions of that plan will determine the order of benefits.
- If parents are separated or divorced, and no court decree applies, the benefits for the child will be determined as follows:
 - The plan of the parent with custody of the child will be primary;
 - The plan of the spouse of the parent with custody of the child will be secondary;
 - The plan of the parent not having custody of the child will be third;
 - In cases of joint custody, benefits will be determined by the Birthday Rule.
 - Where there is a court decree which establishes financial responsibility for the health care expenses of the child, the plan which covers the child as a dependent of the parent with such financial responsibility will be the primary plan.
 - In cases of joint custody, benefits will be determined by the Birthday Rule as described in the second bulleted item above regarding the "Coordination of Benefits or non-duplication provision".
 - The benefits of a plan covering the patient as a laid-off or retired employee or as the Dependent of a laid off or retired employee shall be determined after the benefits of any other plan covering such person as an employee or dependent of such person. If the other plan does not have the rule regarding laid-off or retired employees, and if, as a result, the plans do not agree on the order of benefits, the rule will be ignored.
 - Where the determination cannot be made in accordance with the preceding paragraphs, the plan which has covered the patient for the longer period of time will be the primary plan.
 - Expenses for the treatment of injury arising out of the maintenance or use of a motor vehicle shall be eligible for coverage only to the extent that such benefits are in excess of, and not in duplication of, benefits paid or payable:
 - Under a plan or policy of motor vehicle insurance, provided that non-duplication as contained herein is not prohibited by law; or
 - Through a program or other arrangement of qualified or certified self-insurance.
 - The Health Benefit Plan may release to or obtain from any person or organization any information about coverage, expenses and benefits, which may be necessary to determine whether this Program has the primary responsibility of payment. For the purpose of COB, if the Member receives services or supplies available under this Benefit Booklet but such is not provided by nor Referred by the Member's Primary Care Physician payment will not be made by this Program except as provided under this Benefit Booklet.
 - Services provided under any governmental program for which any periodic payment is made by or for the Subscriber shall always be the primary plan, except where prohibited by law.

This provision does not apply to an individual health care plan issued to or in the name of the Member.

SUBROGATION AND REIMBURSEMENT RIGHTS

By accepting benefits for Covered Services, you agree that the Health Benefit Plan has the right to enforce subrogation and reimbursement rights. This section explains these rights and the responsibilities of each Member pertaining to subrogation and reimbursement. The term Member includes Eligible Dependents. The term Responsible Third Party refers to any person or entity, including any insurance company, health benefits plan or other third party, that has an obligation (whether by contract, common law or otherwise) to pay damages, pay compensation, provide benefits or make any type of payment to you for an injury or illness.

The Health Benefit Plan retains full discretionary authority to interpret and apply these subrogation and reimbursement rights based on the facts presented.

Subrogation Rights

Subrogation rights arise when the Health Benefit Plan pays benefits on behalf of a Member and the Member has a right to receive damages, compensation, benefits or payments of any kind (whether by a court judgment, settlement or otherwise) from a Responsible Third Party. The Health Benefit Plan is subrogated to the Member's right to recover from the Responsible Third Party. This means that the Health Benefit Plan "stands in your shoes" – and assumes your right to pursue and receive the damages, compensation, benefits or payments from the Responsible Third Party to the full extent that the Health Benefit Plan has reimbursed you for medical expenses or paid medical expenses on your behalf, plus the costs and fees that are incurred by the Health Benefit Plan to enforce these rights. The right to pursue a subrogation claim is not contingent upon whether or not you pursue the Responsible Third Party for any recovery.

Reimbursement Rights

If a Member obtains any recovery — regardless of how it's described or structured — from a Responsible Third Party, the Member must fully reimburse the Health Benefit Plan for all medical expenses that were paid to the Member or on the Member's behalf, plus the costs and fees that are incurred by the Health Benefit Plan to enforce these rights. The Health Benefit Plan has a right to full reimbursement.

Lien

By accepting benefits for Covered Services from the Health Benefit Plan you agree to a first priority equitable lien by agreement on any payment, reimbursement, settlement or judgment received by you, or anyone acting on your behalf, from any Responsible Third Party. As a result, you must repay to the Health Benefit Plan the full amount of the medical expenses that were paid to you or on your behalf out of the amounts recovered from the Responsible Third Party (plus the costs and fees that are incurred by the Health Benefit Plan to enforce these rights) first, before funds are allotted toward any other form of damages, whether or not there is an admission of fault or liability by the Responsible Third Party. The Health Benefit Plan has a lien on any amounts recovered by the Member from a Responsible Third Party, regardless of whether or not the amount is designated as payment for medical expenses. This lien will remain in effect until the Health Benefit Plan is reimbursed in full.

Constructive Trust

If you (or anyone acting on your behalf) receive damages, compensation, benefits or payments of any type from a Responsible Third Party (whether by a court judgment, settlement or otherwise), you agree to maintain the funds in a separate, identifiable account and that the Health Benefit Plan has a lien on the monies. In addition you agree to serve as the trustee over the monies for the benefit of Health Benefit Plan to the full extent that the Health Benefit Plan has reimbursed you for medical expenses or paid medical expenses on your behalf, plus the attorney's fees and the costs of collection incurred by the Health Benefit Plan.

- These subrogation and reimbursement rights apply regardless of whether money is received through a court decision, settlement, or any other type of resolution.
- These subrogation and reimbursement rights apply even if the recovery is designated or described as covering damages other than medical expenses (such as property damage or

pain and suffering).

- These subrogation and reimbursement rights apply with respect to any recoveries made by the Member, including amounts recovered under an uninsured or underinsured motorist policy.
- The Health Benefit Plan is entitled to recover the full amount of the benefits paid to the Member or on the Member's behalf plus the costs and fees that are incurred by the Health Benefit Plan to enforce these rights without regard to whether the Member has been made whole or received full compensation for other damages (including property damage or pain and suffering). The recovery rights of the Health Benefit Plan will not be reduced by the "made whole" doctrine or "double recovery" doctrine.
- The Health Benefit Plan will not pay, offset any recovery, or in any way be responsible for attorneys' fees or costs associated with pursuing a claim against a Responsible Third Party unless the Health Benefit Plan agrees to do so in writing. The recovery rights of the Health Benefit Plan will not be reduced by the "common fund" doctrine.
- In addition to any coordination of benefits rules described in this booklet, the benefits paid by the Health Benefit Plan will be secondary to any no-fault auto insurance benefits and to any worker's compensation benefits (no matter how any settlement or award is characterized) to the fullest extent permitted by law.
- These subrogation and reimbursement rights apply and will not be decreased, restricted, or eliminated in any way if the Member receives or has the right to recover no-fault insurance benefits. All rights under this section are enforceable against the heirs, estate, legal guardians or legal representatives of the Member.
- The Health Benefit Plan is entitled to recover the full amount of the medical benefits paid without regard to any claim of fault on your part.

Obligations of Member

- Immediately notify the Health Benefit Plan or its designee in writing if you assert a claim against a Responsible Third Party, whether informally or through judicial or administrative proceedings.
- Immediately notify the Health Benefit Plan or its designee in writing whenever a Responsible Third Party contacts you or your representative - or you or your representative contact a Responsible Third Party - to discuss a potential settlement or resolution.
- Refuse any offer to settle, adjust or resolve a claim for damages, benefits or compensation that involves an injury, illness or medical expenses in any way, unless and until you receive written authorization from the Health Benefit Plan or its delegated representative.
- Fully cooperate with the Health Benefit Plan and its designated representative, as needed, to allow for the enforcement of these subrogation and reimbursement rights and promptly supply information/documentation when requested and promptly execute any and all forms/documents that may be needed.
- Avoid taking any action that may prejudice or harm the Health Benefit Plan ability to enforce

these subrogation and reimbursement rights to the fullest extent possible.

- Fully reimburse the Health Benefit Plan or its designated representative immediately upon receiving compensation of any kind (whether by court judgment, settlement or otherwise) from a Responsible Third Party.
- Serve as trustee for any and all monies paid to (or payable to) you or for your benefit by any Responsible Third Party to the full extent the Health Benefit Plan paid benefits for an injury or illness.
- All of these Obligations apply to the heirs, estate, legal guardians or legal representatives of the Member.

CLAIM PROCEDURES

Most claims are filed by Providers in the Health Benefit Plan's network. The following applies if the Member must submit a claim.

Notice of Claims

The Health Benefit Plan will not be liable for any claims under this Program unless proper notice is furnished to the Health Benefit Plan that Covered Services in this Program have been rendered to a Member.

Written notice of a claim must be given to the Health Benefit Plan within 20 days, or as soon as reasonably possible after Covered Services have been rendered to the Member. Notice given by or on behalf of the Member to the Health Benefit Plan that includes information sufficient to identify the Member that received the Covered Services, shall constitute sufficient notice of a claim to the Health Benefit Plan.

The Member can give notice to the Health Benefit Plan by calling Customer Service. The telephone number and address of Customer Service can be found on the Member's ID Card. A charge shall be considered Incurred on the date a Member receives the Covered Service for which the charge is made.

Proof of Loss

Claims cannot be paid until a written proof of loss is submitted to the Health Benefit Plan. Written proof of loss must be provided to the Health Benefit Plan within 90 days after the charge for Covered Services is Incurred. Proof of loss must include all data necessary for the Health Benefit Plan to determine benefits. Failure to submit a proof of loss to the Health Benefit Plan within the time specified will not invalidate or reduce any claim if it is shown that the proof of loss was submitted as soon as reasonably possible, but in no event, except in the absence of legal capacity, will the Health Benefit Plan be required to accept a proof of loss later than 12 months after the charge for Covered Services is Incurred.

Claim Forms

If a Member (or if deceased, by his/her personal representative) is required to submit a proof of loss for benefits under this Program, it must be submitted to the Health Benefit Plan on the appropriate claim form. The Health Benefit Plan, upon receipt of a notice of claim will, within 15 days following the date notice of claim is received, furnish to the Member claim forms for filing proofs of loss. If claim forms are not furnished within 15 days after the giving of such notice, the Member shall be deemed to have complied with the requirements of this subsection as to filing

a proof of loss upon submitting, within the time fixed in this subsection for filing proofs of loss, itemized bills for Covered Services as described below. Itemized bills may be submitted to the Health Benefit Plan at the address appearing on the Member's ID Card. Itemized bills cannot be returned.

Submission of Claims Forms

For Member-submitted claims, the completed claim form, with all itemized bills attached, must be forwarded to the Health Benefit Plan at the address appearing on the claim form in order to satisfy the requirement of submitting a written proof of loss and to receive payment for benefits provided under this Program.

To avoid delay in handling Member-submitted claims, answers to all questions on the claim form must be complete and correct. Each claim form must be accompanied by itemized bills showing all of the following information:

- Person or organization providing the service or supply;
- Type of service or supply;
- Date of service or supply;
- Amount charged; and
- Name of patient.

A request for payment of a claim will not be reviewed and no payment will be made unless all the information and evidence of payment required on the claim form has been submitted in the manner described above. The Health Benefit Plan reserves the right to require additional information and documents as needed to support a claim that a Covered Service has been rendered.

Timely Payment of Claims

Claims payment for benefits payable under this Program will be processed immediately upon receipt of proper proof of loss.

Physical Examinations and Autopsy

The HMO at its own expense shall have the right and opportunity to examine the Member when and so often as it may reasonably require during the pendency of claim under the Contract; and the HMO shall also have the right and opportunity to make an autopsy in case of death, where it is not prohibited by law.

Payment of Claims

If any indemnity of the Contract shall be payable to the estate of the Member, or to a Member or beneficiary who is a minor or otherwise not competent to give a valid release, the HMO may pay such indemnity, up to an amount not exceeding \$1,000, to any relative by blood or connection by marriage of the Member or beneficiary who is deemed by the HMO to be equitably entitled thereto. Any payment made by the HMO in good faith pursuant to this provision shall fully discharge the HMO to the extent of such payment.

Time Limit on Certain Defenses

After three (3) years from the date of issue of the Contract, no misstatements, except fraudulent misstatements made by the Applicant in the Application for such Contract, shall be used to void said Contract or to deny benefits for a claim incurred commencing after the expiration of such three (3) year period.

Legal Action

No legal action may be commenced against the Health Benefit Plan with respect to the Contract until at least sixty (60) days after the Health Benefit Plan has received a properly completed claim form, Referral or encounter form. No legal action against the Health Benefit Plan with respect to the Contract may be filed later than three (3) years after the Covered Services or supplies were performed or provided.

In addition, no legal action regarding a Complaint or Grievance may be commenced against the Health Benefit Plan until the Member has exhausted his or her administrative remedies and appeals as detailed in this Contract.

COMPLAINT AND GRIEVANCE APPEAL PROCESS

GENERAL INFORMATION ABOUT THE APPEAL PROCESSES

The Health Benefit Plan maintains a Complaint appeal process and a Grievance appeal process for its Members. Each of these appeal processes provides formal review for a Member's dissatisfaction with a denial of coverage or other issues related to his/her health plan underwritten by the Health Benefit Plan.

The Complaint appeal process and the Grievance appeal process focus on different issues and have other differences. **Please refer to the separate sections below entitled Member Complaint Appeal Process and Member Grievance Appeal Process for specific information on each process.**

However, the Complaint appeal process and Grievance appeal process also have some common features. To understand how to pursue a Member appeal, the Member should also review the background information outlined here that applies to both the Complaint appeal process and the Grievance appeal process.

- **Authorizing Someone To Represent the Member.** At any time, the Member may choose a third party to be their representative in their Member appeal such as a Provider, lawyer, relative, friend, another individual, or a person who is part of an organization. The law states that the Member's written authorization or consent is required in order for this third party—called an "Appeal Representative" or "Authorized Representative"—to pursue an appeal on the Member's behalf. An Appeal Representative may make all decisions regarding the Member's appeal, provide and obtain correspondence, and authorize the release of medical records and any other information related to their appeal. In addition, if the Member chooses to authorize an Appeal Representative, the Member has the right to limit their authority to release and receive the Member's medical records or other appeal information in any other way the Member identifies.

In order to authorize someone to be the Member's Appeal Representative, the Member must complete valid authorization forms. The required forms are sent to adult Members or to the parents, guardians or other legal representatives of minor or incompetent Members who appeal and indicate that they want an Appeal Representative. Authorization forms can be obtained by calling or writing to the address listed below:

Member Appeals Department
P.O. Box 41820
Philadelphia, PA 19101-1820
Toll Free: 1-888-671-5276 (TTY: 711)
Fax: 1-888-671-5274

Except in the case of an Expedited appeal, the Health Benefit Plan must receive completed, valid authorization forms before the Member's appeal can be processed. (For information on Expedited appeals, see the definition below and the references in the Member Complaint Appeal Process and Member Grievance Appeal Process sections below.) The Member has the right to withdraw or rescind authorization of an Appeal Representative at any time during the process.

If the Member's Provider files an appeal on the Member's behalf, the Health Benefit Plan will verify that the Provider is acting as the Member's Appeal Representative with their permission by obtaining valid authorization forms. A Member who authorizes the filing of an appeal by a Provider cannot file a separate appeal.

Information for the Appeal Review:

- How to File and Get Assistance - Appeals may be submitted by the Member or their Appeal Representative with the Member's authorization by following the steps outlined below in the descriptions of the Member Complaint Appeal Process and Member Grievance Appeal Process. At any time during these appeal processes, the Member may request the help of a Health Benefit Plan employee in preparing or presenting their appeal; this assistance will be available at no charge. Please note that the Health Benefit Plan employee designated to assist the Member will not have participated in the previous decision to deny coverage for the issue in dispute and will not be a subordinate of the original reviewer.
- Full and Fair Review - The Member or designee is entitled to a full and fair review. Specifically, at all appeal levels the designee may submit additional information pertaining to the case, to the Health Benefit Plan. The Member or designee may specify the remedy or corrective action being sought. At the Member's request, the Health Benefit Plan will provide access to and copies of all relevant documents, records, and other information that are not confidential, proprietary, or privileged. The Health Benefit Plan will automatically provide the Member or designee with any new or additional evidence considered, relied upon, or generated by the plan in connection with the appeal, which is used to formulate the rationale. Such evidence is provided as soon as possible and in advance of the date the adverse notification is issued. This information is provided to the Member or designee at no charge.
- Advanced Notice - The Health Benefit Plan will not terminate or reduce an-ongoing course of treatment without providing the Member or designee with advance notice and the opportunity for advanced review.
- Urgent Care - An urgent expedited appeal is any appeal for Medical Care or treatment with respect to which the application of the time periods for making non-urgent determinations could seriously jeopardize the life or health of the Member or the ability of the Member to regain maximum function, or in the opinion of a Physician with knowledge of the Member's

medical condition, would subject the Member to severe pain that cannot be adequately managed without the care or treatment that is the subject of the appeal. Members with Urgent Care conditions or who are receiving an on-going course of treatment may proceed with an expedited external review at the same time as the internal expedited appeals process.

- Changes in Member Appeals Processes - Please note that the Members Appeal processes described here may change at any time due to changes in the applicable state and federal laws and regulations and/or accreditation standards, to improve or facilitate the Members Appeals processes, or to reflect other decisions regarding the administration of Members Appeal processes for this Program.
- Appeal Decision Letters - If the Member's appeal request is not granted in full, the letter states the reason(s) for the decision. If a benefit provision, internal, rule, guideline, protocol, or other similar criterion is used in making the determination, the Member may request copies of this information at no charge. If the decision is to uphold the denial, there is an explanation of the scientific or clinical judgment for the determination. The letter also indicates the qualifications of the individual who decided the appeal and their understanding of the nature of the appeal. The Member or designee may request in writing, at no charge, the name of the individual who participated in the decision to uphold the denial.
- Appeal Classifications. The two classifications of appeals - Complaints and Grievances - established by Pennsylvania state laws and regulations are described in detail in separate sections below. A Grievance appeal may be filed when the denial of a Covered Service is based primarily on Medical Necessity. A Complaint appeal may be filed to challenge a denial based on a Contract Limitation or to complain about other aspects of health plan policies or operations.

The Member may question the classification of their appeal as a Complaint or Grievance by contacting the Health Benefit Plan's Member Appeals Department or their assigned appeals specialist at the address and telephone number shown above or by contacting the Pennsylvania Department of Health or the Pennsylvania Insurance Department at:

**Pennsylvania Department of Health
Bureau of Managed Care
Room 912, Health and Welfare Bldg.
625 Forster Street
Harrisburg, PA. 17120-0701
Toll Free: 1-888-466-2787 (TTY: 711)
1-717-787-5193 (TTY: 711)
Fax: 1-717-705-0947**

**Pennsylvania Insurance Department

Harrisburg, PA. 17120
1-877-881-6388 (TTY: 711)

Appeals are also subject to the following classifications that affect the time available to conduct the appeal review:

A **Pre-service** appeal is any appeal for benefits with a coverage requirement that Preapproval or Precertification by the Health Benefit Plan must be obtained before Medical Care and services are received. A maximum of **15 days** is available for each of the two levels of internal review available for a standard Pre-service appeal.

A **Post-service** appeal includes any appeal for benefits for Medical Care or services that a Member has already received. A maximum of **30 days** is available for each of the two levels of internal review available for a standard Post-service appeal.

A maximum of **48 hours** is available for internal review of an Urgent/Expedited appeal.

COMPLAINT APPEAL PROCESS

Informal Member Complaint Process

The Health Benefit Plan will make every attempt to answer any questions or resolve any concerns the Member has related to benefits or services.

If the Member has a concern, they should call Customer Service at the telephone number listed on their ID card, or write to:

**Manager of Customer Service
AmeriHealth HMO, Inc.
P.O. Box 8339
Philadelphia, PA 19101-8339**

Most Member concerns are resolved informally at this stage. If the Health Benefit Plan cannot immediately resolve the Member's concern, we will acknowledge it in writing within **five business days** of receiving it. If the Member is not satisfied with the response to their concern from the Health Benefit Plan, the Member has the right to file a formal Complaint appeal within **180 calendar days**, through the **Formal Member Complaint Appeal Process** described below.

Formal Member Complaint Appeal Process

The Member may file a formal Complaint appeal regarding an unresolved dispute or objection regarding coverage, including this Program's exclusions and non-Covered Services, coverage Limitations, Participating or Non-Participating Provider status, cost sharing requirements, and rescission of coverage (except for failure to pay premiums or coverage contributions), or the operations or management policies of the Health Benefit Plan. The Complaint process consists of two internal levels of review by the Health Benefit Plan, and one external level of review by the Pennsylvania Department of Health or the Pennsylvania Insurance Department. There is also an internal Expedited Complaint process in the event the Member's condition involves an urgent issue.

Internal Complaint Appeals

Internal First Level Standard Complaint Appeals

The Member may file a formal, first level standard Complaint appeal within 180 calendar days from either their receipt of the original notice of denial from the Health Benefit Plan or completion of the Informal Member Complaint Appeal Process described above. To file a first level standard Complaint appeal, call Customer Service toll free at the telephone number listed on the Member's ID card, or call, write or fax the Member Appeals Department as follows:

**Member Appeals Department
P.O. Box 41820
Philadelphia, PA 19101-1820
Toll Free: 1-888-671-5276 (TTY: 711)
Fax: 1-888-671-5274**

The Health Benefit Plan will acknowledge receipt of the Member's Complaint appeal in writing within five business days of receipt of the request.

The First Level Complaint Committee will complete its review of the Member's standard Complaint appeal within:

- **15 calendar days** from receipt of a Pre-service appeal; and
- **30 calendar days** from receipt of a Post-service appeal.

The First Level Complaint Committee is composed of one Health Benefit Plan employee who has had no previous involvement with the Member's case and who is not subordinate to the person who made the original determination. The Member will be sent their decision in writing within the timeframes noted above. If the Member's Complaint appeal is denied, the decision letter states:

- The specific reason for the decision;
- This Program's provision on which the decision is made and instructions on how to access the provision; and,
- How to appeal to the next level if the Member is not satisfied with the decision.

Internal Second Level Standard Complaint Appeals

If the Member is not satisfied with the decision from their first level standard Complaint, they may file a second level standard Complaint to the Second Level Complaint Committee within 60 calendar days of their receipt of the First Level Complaint Committee's decision from the Health Benefit Plan. To file a second level standard Complaint, call, write or fax the Member Appeals Department at the address and telephone numbers listed above.

The Member has the right to present their Complaint appeal to the Committee in person or by way of a conference call. The Member's appeal can also be presented by their Provider or another Appeal Representative if their authorization is obtained. (See General Information about Member Appeal Processes above for information about authorizations.) The Health Benefit Plan will attempt to contact the Member to schedule the Second Level Complaint Committee meeting for their standard Complaint appeal.

Upon receipt of the Member's appeal, the Member will be notified in writing when possible 15 calendar days in advance of a date and time scheduled for the Second Level Complaint Committee's meeting. The Member may request a change in the meeting schedule. We will do our best to accommodate their request while remaining within the established timeframes. If the Member does not participate in the meeting, the Second Level Complaint Committee will review their Complaint appeal and make its decision based on all available information.

The Second Level Complaint Committee meets and renders a decision on the Member's standard Complaint appeal within:

- **15 calendar days** from receipt of a Pre-service appeal; and
- **30 calendar days** from receipt of a Post-service appeal.

The Second Level Complaint Committee is composed of at least three persons who have had no previous involvement with the Member's case and who are not subordinates of the person who made the original determination. The Second Level Complaint Committee members will include the Health Benefit Plan's staff, with one third of the Committee being Members or other persons who are not employed by the Health Benefit Plan. The Member may submit supporting materials both before and at the appeal meeting. Additionally, the Member has the right to review all information considered by the Committee that is not confidential, proprietary or privileged.

The Second Level Complaint Committee meeting is a forum where Members have an

opportunity to present their issues in an informal setting that is not open to the public. Two other persons may accompany the Member unless they receive prior approval from the Health Benefit Plan for additional assistance due to special circumstances. Members of the press may only participate in their personal capacity as the Member's Appeal Representative or to provide general, personal assistance. Members, Appeal Representatives and others assisting the Member may not audiotape or videotape the Committee proceedings.

The Member will be sent the decision letter of the Second Level Complaint Committee on their standard Complaint appeal within the timeframes noted above. The decision is final unless the Member chooses to appeal to the Pennsylvania Insurance Department or Department of Health as described in the decision letter. (See also **External Complaint Appeals** below.)

Internal Expedited Complaint Appeals

If the Member's case involves an urgent issue, then the Member or their Physician may ask to have their case reviewed in a faster manner, as an internal Expedited Complaint. There is only one internal level of appeal review for an Expedited Complaint appeal.

Members with Urgent Care conditions or who are receiving an on-going course of treatment may proceed with an expedited external review at the same time as the internal expedited appeals process.

To request an internal Expedited Complaint Appeal, call Customer Service at the toll free telephone number listed on the Member's ID card or call or fax the Member Appeals Department at the address or telephone numbers listed above. The Health Benefit Plan will promptly inform the Member whether their appeal request qualifies for Expedited review or instead will be processed as a standard Complaint appeal. The Expedited Complaint Committee has the same composition as a Second Level Complaint Committee for a standard Complaint appeal—three persons who have had no previous involvement with the Member's case and who are not subordinates of the person who made the original determination. The Committee members include the Health Benefit Plan's staff, with one third of the Committee being members or other persons who are not employed by the Health Benefit Plan.

The Member has the right to present their Expedited Complaint to the Committee in person or by way of a conference call. The Member appeal can also be presented by their Provider or another Appeal Representative if the Member's authorization is obtained. (See **General Information About Member Appeal Processes** above for information about authorizations.) If the Member does not participate in the meeting, the Expedited Complaint Committee will review their Complaint appeal and make its decision based on all available information.

The Expedited Complaint Committee meeting is a forum where Members have an opportunity to present their issues in an informal setting that is not open to the public. Two other persons may accompany the Member unless the Member receives prior approval from the Health Benefit Plan for additional assistance due to special circumstances. Members of the press may only participate in their personal capacity as the Member's Appeal Representative or to provide general, personal assistance. Members, Appeal Representatives and others assisting the Member may not audiotape or videotape the Committee proceedings.

The Health Benefit Plan conducts an expedited internal review and issues a decision to the Member and their practitioner/provider within 48 hours of the date the Health Benefit Plan received the appeal. The notification includes the basis for the decision, and the procedure for obtaining an expedited external review.

The decision is final unless the Member chooses to appeal to the Pennsylvania Insurance Department or the Pennsylvania Department of Health as described in the decision letter. (See also "External Complaint Appeals" below.)

External Complaint Appeals

External Standard and Expedited Complaint Appeals

If the Member is not satisfied with the decision of the internal Second Level Complaint Committee or Expedited Complaint Committee, the Member has the right to an external appeal. The Member's external Complaint appeal is to be filed within **15 calendar days** of their receipt of the decision letter for a second level standard Complaint appeal and within **two business days** of the Member's receipt of the decision letter for an expedited Complaint appeal. The Member's request for an external Complaint appeal review is to be filed in writing to the Pennsylvania Insurance Department (PID) or Pennsylvania Department of Health (DOH) at the addresses noted below:

**Pennsylvania Department of Health
Bureau of Managed Care
Room 912, Health and Welfare Bldg.
625 Forster Street
Harrisburg, PA. 17120-0701
Toll Free: 1-888-466-2787 (TTY: 711)
1-717-787-5193 (TTY: 711)
Fax: 1-717-705-0947**

**Pennsylvania Insurance Department
Bureau of Consumer Services
1209 Strawberry Square
Harrisburg, PA. 17120
1-877-881-6388 (TTY: 711)
Fax: 1-717-787-8585**

The Member's request for external review of their standard or expedited Complaint appeal should include the Member's name, address, daytime telephone number, the name of the Health Benefit Plan as their managed care plan, the group number, the Member's Health Benefit Plan ID number and a brief description of the issue being appealed. Also include a copy of the Member's original request for an internal second level standard or expedited Complaint appeal review to the Health Benefit Plan and copies of any correspondence and decision letters from the Health Benefit Plan.

When an external standard or expedited Complaint appeal request is submitted to the PID or DOH, the original submission date of the request is considered the date of receipt. The regulatory agency that receives the request will review it and transfer it to the other agency if this is found to be appropriate. The regulatory agency that handles the Member's external Complaint appeal will provide the Member and the Health Benefit Plan with a copy of the final determination of its decision.

GRIEVANCE APPEAL PROCESS

Formal Member Grievance Appeal Process for Decisions Based On Medical Necessity

Members may file a formal Grievance appeal of a decision by the Health Benefit Plan regarding a Covered Service that was denied or limited based primarily on Medical Necessity, the cosmetic or experimental/investigative exclusions, or other grounds that rely on a medical or clinical judgment.

The Grievance appeal process consists of two internal Grievance reviews by the Health Benefit Plan—a first level standard Grievance and second level standard Grievance—and an external

review through an external certified review entity or utilization review agency assigned by the Pennsylvania Department of Health (DOH).

There is also an internal and external expedited Grievance appeal process in the event the Member's condition involves an urgent issue.

Internal Grievance Appeals

Internal First Level Standard Grievance Appeals

The Member may file a first level standard Grievance appeal within **180 calendar days** from the date of receipt of the original denial by the Health Benefit Plan. To do so, call Customer Service at the toll free telephone number listed on their ID Card, or call, write or fax the Member Appeals Department as follows:

Member Appeals Department
P.O. Box 41820
Philadelphia, PA 19101-1820
Toll Free: 1-888-671-5276 (TTY: 711)
Fax: 1-888-671-5274

The Health Benefit Plan will acknowledge receipt of the Member's Grievance appeal in writing within **five business days** of receipt of the request.

The Member's first level standard Grievance appeal is reviewed by a Committee for which a plan Medical Director is the decision-maker. The decision-maker is a matched specialist or the decision-maker receives input from a consultant who is a matched specialist. A matched specialist or "same or similar specialty Physician" is a licensed Physician or Psychologist who:

- Is in the same or similar specialty as typically manages the care under review;
- Has had no previous involvement in the case; and,
- Is not a subordinate of the person who made the original determination.

The matched specialist must also hold an active license to practice medicine.

If the matched specialist Physician is a consultant, his or her opinion on the Grievance appeal issues will be reported to the Health Benefit Plan in writing for consideration by the Committee. The Member may request a copy of the matched specialist's opinion in writing, and when possible it will be provided to the Member at least seven calendar days prior to the date of review by the First Level Grievance Committee. The matched specialist's report includes his or her credentials as a licensed Physician or Psychologist such as board certification.

The First Level Grievance Committee completes its review of the Member's standard Grievance appeal within:

- **15 calendar days** from receipt of a Pre-service appeal; and
- **30 calendar days** from receipt of a Post-service appeal.

The Member will be sent the Committee's decision on their first level standard Grievance appeal in writing within the timeframes noted above. If the Member's Grievance appeal is denied, the decision letter states:

- The specific reason for the denial;
- The Health Benefit Plan's provision on which the decision is made and instructions on how to access the provision; and,
- How to appeal to the next level if the Member is not satisfied with the decision.

Internal Second Level Standard Grievance

If not satisfied with the decision from the Member's first level standard Grievance, the Member may file a second level standard Grievance appeal within **60 calendar days** of their receipt of the first level standard Grievance appeal decision from the Health Benefit Plan. To file a second level standard Grievance, call, write or fax the Member Appeals Department at the address and numbers listed above.

The Member has the right to present their Grievance appeal to the Committee in person or by way of a conference call. The Member's appeal can also be presented by their Provider or another Appeal Representative if the Member's authorization is obtained. (See **General Information About Member Appeal Processes** above for information about authorizations.)

The Second Level Grievance Committee for a standard Grievance appeal is composed of three persons who have had no previous involvement with the Member's case and who are not subordinate to the original reviewer. The Second Level Grievance Committee includes two Health Benefit Plan staff members; at least one of these Committee members is a plan Medical Director, a Physician who holds an active license. Additionally, one third of the Committee is not employed by the Health Benefit Plan.

Upon receipt of the Member's appeal, the Member will be notified in writing when possible **15 calendar days** in advance of a date and time scheduled for the Second Level Grievance Committee's meeting. The Member may request a change in the meeting schedule. The Health Benefit Plan will try to accommodate their request while remaining within the established timeframes. If the Member does not participate in the meeting, the Second Level Grievance Committee will review the Member's Grievance appeal and make its decision based on all available information.

The Second Level Grievance Committee will meet and render a decision on the Member's standard Grievance appeal within:

- **15 calendar days** from receipt of a Pre-service appeal; and
- **30 calendar days** from receipt of a Post-service appeal.

The Committee's review will include the matched specialist report. Upon written request, the Member will be provided with a copy of this report when possible within **at least seven calendar days** prior to the review by the Second Level Grievance Committee. The matched specialist's report includes his or her credentials as a licensed Physician or Psychologist such as board certification. If the matched specialist is attending the meeting, his/her credentials such as board certification will be provided to the Member. The Member may submit supporting materials both before and at the time of the appeal meeting. Additionally, the Member has the right to review all information considered by the Committee that is not confidential, proprietary or privileged.

The Second Level Grievance Committee meetings are a forum where Members each have the opportunity to present their issues in an informal setting that is not open to the public. Two other persons may accompany the Member, unless the Member receives prior approval from the Health Benefit Plan for additional assistance due to special circumstances. Members of the press may only attend in their personal capacity as a Member's Appeal Representative or to provide general, personal assistance. Members may not audiotape or videotape the Committee proceedings.

The Member will be sent the decision of the Second Level Grievance Committee in writing within the timeframes noted above. The decision is final unless the Member chooses to file an external standard Grievance within **15 calendar days** of their receipt of the decision notice from the Health Benefit Plan.

Internal Expedited Grievance Appeals

If the Member's case involves an urgent medical condition, then the Member or their Physician may ask to have the Member's case reviewed in a faster manner, as an Expedited Grievance. There is only one internal level of appeal review for an Expedited Grievance appeal.

Members with Urgent Care conditions or who are receiving an on-going course of treatment may proceed with an expedited external review at the same time as the internal expedited appeals process.

To request an internal Expedited Grievance review by the Health Benefit Plan, call Customer Service at the toll free telephone number listed on the Member's ID card, or call, or fax the Member Appeals Department at the telephone numbers listed above. The Health Benefit Plan will promptly inform the Member whether their appeal request qualifies for expedited review or instead will be processed as a standard Grievance appeal.

The Expedited Grievance Committee has the same composition as a Second Level Grievance Committee for a standard Grievance appeal.

The Member has the right to present their Expedited Grievance to the Committee in person or by way of a conference call. The Member's appeal can also be presented by their Provider or another Appeal Representative if the Member's authorization is obtained. (See **General Information about Member Appeal Processes** above for information about authorizations.) If the Member does not participate in the meeting, the Expedited Grievance Committee will review their Grievance appeal and make its decision based on all available information.

The Expedited Grievance Committee meeting is a forum where Members have an opportunity to present their issues in an informal setting that is not open to the public. Two other persons may accompany the Member unless the Member receives prior approval from the Health Benefit Plan for additional assistance due to special circumstances. Members of the press may only participate in their personal capacity as the Member's Appeal Representative or to provide general, personal assistance. Member Appeal Representatives and others assisting the Member may not audiotape or videotape the Committee proceedings.

The Expedited Grievance review is completed promptly based on the Member's health condition. This Program conducts an expedited internal review and issues a decision to the Member and practitioner/provider within **48 hours** of the date the Health Benefit Plan received the appeal. The notification includes the basis for the decision, including any clinical rationale, and the procedure for obtaining an expedited external review.

External Grievance Appeals

The two types of external Grievance appeals—standard and expedited—are described below. Members are not required to pay any of the costs associated with the external standard or expedited Grievance appeal review. However, when a Provider is a Member's Appeal Representative for external Grievance appeal review, then the Provider is required to:

- Place in escrow one-half of the estimated costs of the external Grievance appeal process; and
- Pay the full costs for the external process if the Provider's appeal on behalf of the Member is not successful.

An independent certified review entity (CRE) assigned by the Pennsylvania Department of Health (DOH) reviews an external Grievance appeal. For standard and expedited Grievance appeals, the Health Benefit Plan authorizes the service(s) or pays claims, if the CRE decides that the requested care or services are Covered Services that are Medically Necessary. The Member is notified in writing of the time and procedure for claim payment or approval of the service(s) in the event that the CRE overturns the prior appeal decision. The CRE's decision may be appealed to a court of competent jurisdiction within **60 calendar days**.

External Standard Grievance Appeals

The Member has **15 calendar days** from the receipt of the decision letter for a second level standard Grievance to request an external standard Grievance appeal review. To file a request an external standard Grievance review by a DOH-assigned CRE, contact the Member Appeals Department as directed in the second level Grievance appeal decision letter or as follows:

Member Appeals Department
P.O. Box 41820
Philadelphia, PA 19101-1820
Toll Free: 1-888-671-5276 (TTY: 711)
Fax: 1-888-671-5274

The Member will be sent written acknowledgement that the Health Benefit Plan has received their external standard Grievance request from the Health Benefit Plan within **five business days** of its receipt of the Member's request. The Health Benefit Plan contacts the DOH to request assignment of a CRE to review the Member's Grievance. The Health Benefit Plan notifies the Member of the name, address and telephone number of the CRE assigned by the DOH to their Grievance within **two business days** of the Health Benefit Plan's receipt of the assignment from the Department. The Member and the Health Benefit Plan have **seven business days** to notify the DOH, if there is an objection to the assignment of the CRE on the basis of conflict of interest.

To submit additional information, the Member or their Appeal Representative should send it to the Health Benefit Plan at the address appearing above and to the CRE within **15 calendar days** of the Member's receipt of the Health Benefit Plan's letter acknowledging their external standard Grievance appeal request. The Health Benefit Plan forwards copies of the information used in reviewing the Member's internal Grievance appeal to the CRE and a list of those documents to the Member or their Appeal Representative within **15 calendar days** of its receipt of the Member's external standard Grievance review appeal.

The CRE will send the Member or the Member's Appeal Representative a written decision within **60 calendar days** of the date when the Member filed their request for an external review. The CRE issues its decision and follow-up occurs as described above in the introduction to this

section.

External Expedited Grievance Appeals

The Member has **two business days** from the Member's receipt of the internal expedited Grievance appeal decision to contact the Health Benefit Plan at the telephone number and address listed above to request an external expedited Grievance appeal. The Health Benefit Plan forwards the Member's request to the DOH **within 24 hours**, which assigns a CRE within 24 hours. The Health Benefit Plan forwards a copy of the internal Grievance appeal case file to the CRE on the next business day and the CRE issues a decision **within two business days** of receipt. The CRE issues its decision and follow-up occurs as described above in the introduction to this section.

DESCRIPTION OF COVERED SERVICES

Subject to the exclusions, conditions and limitations of this Program, a Member is entitled to benefits for the Covered Services described in this **Description of Covered Services** section during a Benefit Period, subject to any Copayment, Deductible, Coinsurance, Out-of-Pocket Limit or Lifetime Maximum. These amounts and percentages, and other cost-sharing requirements are specified in the **Schedule of Covered Services**.

The Member will maximize the benefits available when Covered Services are provided by Participating Providers. The benefits of using these Providers include lower Coinsurance payments, no balance billing and no claim forms. The **General Information** section provides more detail regarding these benefits.

Some Covered Services must be Precertified before the Member receives the services. Precertification of services is a vital program feature that reviews Medical Necessity of certain procedures and/or admissions. In certain cases, Precertification helps determine whether a different treatment may be available that is equally effective yet less traumatic. Precertification also helps determine the most appropriate setting for certain services. Failure to obtain a required Precertification for a Covered Service could result in a reduction of benefits. More information on Precertification is found in the **General Information** section.

PRIMARY AND PREVENTIVE CARE

A Member is entitled to benefits for Primary Care and Preventive Care Covered Services when deemed Medically Necessary and billed for by a Provider. Cost-sharing requirements are specified in the **Schedule of Covered Services**.

"Preventive Care" services generally describe health care services performed to catch the early warning signs of health problems. These services are performed when the Member has no symptoms of disease. "Primary Care" services generally describe health care services performed to treat an illness or injury.

The Health Benefit Plan reviews the schedule of Covered Services, at certain times. Reviews are based on recommendations from national organizations of:

- Physicians, including pediatricians and internists;
- National independent panels of experts in primary care and prevention;
- National not-for-profit health organizations; and
- Government advisory panels.

Accordingly, the frequency and eligibility of Covered Services are subject to change. A schedule of Preventive Care Covered Services can be found by accessing the following link: www.amerihhealth.com/preventive_services.

The Health Benefit Plan reserves the right to modify the schedule at any time. However, the Member has to be given a written notice of the change, before the change takes effect.

It is the responsibility of the Group or the Group's Applicant Agent to notify the Member and the Member's eligible Dependents of the termination of coverage. However, coverage will be terminated regardless of whether the notice is given.

Rescission: If it is proven that the Member or the Member's eligible Dependent obtained or attempted to obtain benefits or payment for benefits, through fraud or intentional misrepresentation of material fact, the Health Benefit Plan, may, upon notice to the Member, terminate the coverage. Conversion coverage shall not be available if the Member is eligible for another health care program which is available in the Group where the Member is employed or with which the Member is affiliated to the extent that the conversion coverage would result in over-insurance.

If the Member's coverage or the coverage of the Member's eligible dependent terminates because of the Member's death, the Member's change in employment status, divorce of dependent spouse, or change in a dependent's eligibility status, the terminated Member will be eligible to apply within 31 days of termination (or termination of the continuation privileges under COBRA) to conversion coverage, of the type for which that Member is then qualified at the rate then in effect. This conversion coverage may be different from the coverage provided under this Program. Evidence of insurability is not required.

It will be for the time the Member remains Totally Disabled from any such illness or injury, but not beyond 12 months if the Member ceases to be a Member because the Member's coverage under this Program ends.

Coverage under this Program will apply during an extension as if the Member was still a Member. INFORMATION ABOUT PROVIDER REIMBURSEMENT

The Member can get the maximum benefits from their Comprehensive Major Medical Health Benefits Program by using Participating Providers. The benefits of using these Participating Providers include:

- Lower coinsurance payments. When the Member uses a Participating Provider, the Coinsurance the Member pays will be a percentage of the contracted rate. This rate is lower than what the Provider normally charges.

The Member doesn't have to shop around for the lowest Provider costs; the Health Benefit Plan has done it for the Member. This means less money out of their pocket.

- No Balance Billing. Participating Providers agree to accept the amount the Health Benefit Plan pays, plus the Member's Coinsurance. If the Member goes to a Non-Participating Provider, the Health Benefit Plan will pay the applicable percentage as described in the "Covered Expense" definition in the **Important Definitions** section. The Member pays the balance of this amount; plus, if the Provider charges rates higher than those normally charged in the geographic area, the Member will pay the extra amount.
- No Claim Forms. When using a Participating Provider, the Member never has to fill out a claim form.
- Precertification. To obtain a list of services that require Precertification please follow the instructions found in the **General Information** section of this Benefit Booklet. If the Member is ever unsure over whether to Precertify, call the Health Benefit Plan. Just use the toll-free number shown on the Member's Identification Card.

Out-of-Network Benefits

The benefits described in this Benefit Booklet are the benefits provided when the Member chooses to receive Covered Services without obtaining a referral from the Member's Primary Care Physician or when the Member chooses to receive Covered Services from a Provider that does not belong to the AmeriHealth Network. In both instances, those Covered Services are called "Out-of-Network" services. When the Member chooses Out-of-Network care, the level of benefits are, in most cases, subject to an annual Deductible, Coinsurance payments and Lifetime and Benefit Maximums, so the Member will be responsible for a greater share of out-of-pocket expenses. The Member also may be required to file a claim form.

Some of the services the Member's receives must be Precertified before the Member receives them, to determine whether they are Medically Necessary. Failure to Precertify Out-of-Network Care services, when required, may result in a reduction of benefits. The Member will be financially liable for Penalties assessed for failure to Precertify Out-of-Network services.

Payment Of Benefits

Payment for Covered Services and supplies, when Medically Necessary, may vary depending on whether the Covered Service or supply was provided by a Participating or Non-Participating Provider.

- Participating Providers
Participating Providers have contractual arrangements for the provision of services to Members. Benefits will be provided as specified in the **Schedule of Covered Services** for Covered Services or supplies rendered to Members by a Participating Provider. The Health Benefit Plan will compensate a Participating Provider in accordance with the rate of reimbursement determined by contract. The Member's out-of-pocket Coinsurance costs will be less when the Member uses these Providers, because the Member's Coinsurance is calculated on lower contracted fees. The Health Benefit Plan may reimburse Providers directly for the services covered under this Program. Participating Providers will, in most instances, submit claim forms for reimbursement on the member's behalf.
- Non-Participating Providers
Non-Participating Providers do not have contractual arrangements for the provision of services to Members. When Covered Services and supplies are rendered by these Providers, the Member's Coinsurance costs may be higher, because the Member's Coinsurance is calculated on the lesser of the allowable payment by Medicare, the Health Benefit Plan's proprietary fee schedule or the Provider's charges. (See the definition of "Covered Expense" in the **Important Definitions** section of this Benefit Booklet). The Health Benefit Plan will pay benefits to the Member directly, and the Member will be responsible for paying the Provider.

▪ Emergency Care by Non-Participating Providers

If the Health Benefit Plan determines that Covered Services provided by a Non-Participating Provider were for Emergency Care, the Member will be subject to the Participating cost-sharing levels. Penalties that ordinarily would be applicable to Non-Participating Covered Services will not be applied. For Emergency Care, the Health Benefit Plan will reimburse the Member for Covered Services at the Non-Participating Provider reimbursement rate.

However, if Emergency Care is provided by certain Out-of-Network Providers (For example, ambulance services), in accordance with applicable law, the Health Benefit Plan will reimburse the Out-of-Network Provider at an In-Network rate directly. In this instance the specified Out-of-Network Provider will not bill the Member for amounts in excess of the Health Benefit Plan's payment for the Emergency Care. For payment of Covered Services provided by a Non-Participating Provider, please refer to the definition of "Covered Expense" in the **Important Definitions** section of this Benefit Booklet. Inpatient admissions for Emergency Care must be certified within two business days of admission, or as soon as reasonably possible, as determined by the Health Benefit Plan. Payment for Emergency Services provided by Non-Participating Providers will be the greater of:

- The median of the amounts paid to Participating Providers for Emergency Services;
- The amount paid to Non-Participating Professional Providers; or
- The amount paid by Medicare.

A Non-Participating Provider who provided Emergency Care can bill the Member directly for their services, for either the Provider's charges or amounts in excess of the Health Benefit Plan's payment for the Emergency Care (That is, balance billing). In such situations, the Member will need to contact the Health Benefit Plan at the Customer Service telephone number listed on the back of the Member's I.D. card. Upon such notification, the Health Benefit Plan will resolve the balance-billing.

▪ Non- Participating Hospital-Based Provider Reimbursement

When the Member receives Covered Services from a Non-Participating Hospital-Based Provider while the Member is an Inpatient at a Participating Hospital or other Participating Facility Provider and are being treated by a Participating Professional Provider, the Member will receive the Participating cost-sharing level of benefits for the Covered Services provided by the Non-Participating Hospital-Based Provider. For such Covered Services, payment will be made to the Member, who will be responsible for reimbursing the Non-Participating Hospital-Based Provider. For payment of Covered Services provided by a Non-Participating Professional Provider, please refer to the definition of "Covered Expense" in the **Important Definitions** section of this Benefit Booklet.

A Non-Participating Hospital-Based Provider can bill the Member directly for their services, for either the Provider's charges or amounts in excess of the Health Benefit Plan's payment to the Non-Participating Hospital-Based Providers (That is, balance billing). In such situations, the Member will need to contact the Health Benefit Plan at the Customer Service telephone number listed on the back of the Member's I.D. card. Upon such notification, the Health Benefit Plan will resolve the balance billing.

Note that when the Member elects to see a Non-Participating Hospital-Based Provider for follow-up care or any other service where the Member has the ability to select a Participating Provider, the Covered Services will be covered at a Non-Participating benefit level. Except for Emergency Care, if a Non-Participating Provider admits the Member to a Hospital or other Facility Provider, Covered Services provided by a Non-Participating Hospital-Based Provider will be reimbursed at the Non-Participating benefit level. For such Covered Services, payment will be made to the Member and the Member will be responsible for reimbursing the Non-Participating Hospital Based Provider. For payment of Covered Services provided by a Non-Participating Professional Provider, please refer to the definition of “Covered Expense” in the **Important Definitions** section of this Benefit Booklet.

- **Inpatient Hospital Consultations by a Non-Participating Professional Provider**

When the Member receives Covered Services for an Inpatient hospital consultation from a Non-Participating Professional Provider while the Member is an Inpatient at a Participating Facility Provider, and the Covered Services are referred by a Participating Professional Provider, the Member will receive the Participating cost-sharing level of benefits for the Inpatient hospital consultation.

For such Covered Services, payment will be made to the Member and the Member will be responsible for reimbursing the Non-Participating Professional Provider. For payment of Covered Services provided by a Non-Participating Professional Provider, please refer to the definition of “Covered Expense” in the **Important Definitions** section of this Benefit Booklet.

A Non-Participating Professional Provider can bill the Member directly for their services, for either the Provider’s charges or amounts in excess of the Health Benefit Plan’s payment to the Non-Participating Professional Providers (That is, balance billing). In such situations, the Member will need to contact the Health Benefit Plan at the Customer Service telephone number listed on the back of the Member’s I.D. card. Upon such notification, the Health Benefit Plan will resolve the balance billing.

Note that when the Member elects to see a Non-Participating Professional Provider for follow-up care or any other service when the Member has the ability to select a Participating Provider, the Covered Services will be covered at a Non-Participating benefit level. Except for Emergency Care, if a Non-Participating Professional Provider admits the Member to a Hospital or other Facility Provider, services provided by Non-Participating Professional Provider will be reimbursed at the Non-Participating benefit level. For such Covered Services, payment will be made to the Member and the Member will be responsible for reimbursing the Non-Participating Professional Provider. For payment of Covered Services provided by a Non-Participating Professional Provider, please refer to the definition of “Covered Expense” in the **Important Definitions** section of this Benefit Booklet.

- **Non-Participating Pharmacies**

With respect to Non-Participating Pharmacies, benefits will be provided to the Member at the Non-Participating Coinsurance level specified in the **Schedule of Covered Services**.

Any applicable cost-sharing specified in the **Schedule of Covered Services** will be applied to the Covered Expense amount. A Non-Participating Pharmacy is entitled to collect from the Member any cost-sharing obligation and the remaining balance due.

- Assignment of Benefits to Providers

The right of a Member to receive benefit payments under this coverage is personal to the Member and is not assignable in whole or in part to any person, Hospital, or other entity nor may benefits of this Program be transferred, either before or after Covered Services are rendered. However, a Member can assign benefit payments to the custodial parent of a Dependent covered under this Program, as required by law.

SERVICES AND SUPPLIES REQUIRING PRECERTIFICATION

Precertification Review

When required, Precertification review evaluates the Medical Necessity, including the appropriateness of the setting, of proposed services for coverage under the Member's benefit plan. Examples of these services include planned or elective Inpatient Admissions and selected Outpatient procedures. Precertification review may be initiated by the Provider (for Participating Providers and BlueCard Providers (Inpatient Admissions only)) or the Member. Where Precertification review is required, the Health Benefit Plan's coverage of the proposed procedure is contingent upon the review being completed and receipt of the approval certification. Coverage penalties may be applied where Precertification review is required for a procedure but is not obtained.

While the majority of services requiring Precertification review are reviewed for Medical Necessity of the requested procedure setting (For example, Inpatient, Short Procedure Unit, or Outpatient setting), other elements of the Medical Necessity of the procedure may not always be evaluated and may be automatically approved based on the procedure or diagnosis for which the procedure is requested or an agreement with the performing provider. Precertification review is not required for Emergency services.

- Inpatient Pre-Admission Review

In accordance with the criteria and procedures described above, Inpatient Admissions, other than an Emergency or maternity admission, must be Precertified in accordance with the standards Health Benefit Plan as to the Medical Necessity of the admission. The Precertification requirements for Emergency admissions are set forth in the "Emergency Admission Review" subsection of this **General Information** section. The Member is responsible to contact or have the admitting Physician or other Facility Provider contact the Health Benefit Plan prior to admission to the Hospital, Skilled Nursing Facility, or other Facility Provider. The Health Benefit Plan will notify the Member, admitting Physician and the Facility Provider of the determination. The Member is eligible for Inpatient benefits only if prior approval of such benefits has been certified in accordance with the provisions of this Benefit Booklet.

If such prior approval for a Medically Necessary Inpatient Admission has not been certified as required, there will be a Penalty for non-compliance and the amount, as shown below, will be deemed not to be Covered Services under this Program. Such Penalty, and any difference in what is covered by the Health Benefit Plan and the Member's obligation to the Provider, will be the sole responsibility of, and payable by, the Member.

If a Member elects to be admitted to the Facility Provider after review and notification that the reason for admission is not approved for an Inpatient level of care, Inpatient benefits will not be provided and the Member will be financially liable for non-covered Inpatient charges.

If pre-admission certification is denied, the Member, the Physician or the Facility Provider may Appeal the determination and submit information in support of the claim for Inpatient benefits. A final determination concerning eligibility for Inpatient benefits will be made and the Member, Physician, or Facility Provider will be so notified.

The Health Benefit Plan will hold the Member harmless and the Member will not be financially responsible for admissions to Participating Hospitals which fail to conform to the above pre-admission certification requirements unless:

- The Hospital provides prior written notice that the admission will not be paid by the Health Benefit Plan; and
- The Member acknowledges this fact in writing together with a request to be admitted which states that the Member will assume financial liability for such Hospital admission.

- Emergency Admission Review

Members are responsible for notifying the Health Benefit Plan of an Emergency admission within two business days of the admission, or as soon as reasonably possible, as determined by the Health Benefit Plan.

Failure to initiate Emergency admission review will result in a reduction in Covered Expense. Such Penalty, as shown below, will be the sole responsibility of, and payable by, the Member.

If the Member elects to remain hospitalized after the Health Benefit Plan and the attending Physician have determined that an Inpatient level of care is not Medically Necessary, the Member will be financially liable for non-covered Inpatient charges from the date of notification.

- Concurrent and Retrospective Review

Concurrent review may be performed while services are being performed. This may occur during an Inpatient stay and typically evaluates the expected and current length of stay to determine if continued hospitalization is Medically Necessary. When performed, the review assesses the level of care provided to the Member and coordinates discharge planning. Concurrent review continues until the patient is discharged. Not all Inpatient stays are reviewed concurrently. Concurrent Review is generally not performed where an Inpatient Facility is paid based on a per case or diagnosis-related basis, or where an agreement with the Facility does not require such review.

Retrospective/Post Service review:

Retrospective review occurs after services have been provided. This may be for a variety of reasons, including the Health Benefit Plan not being notified of a Member's admission until after discharge or where medical charts are unavailable at the time of concurrent review. Certain services are only reviewed on a retrospective/post-service basis.

In addition to these standard utilization reviews, the Health Benefit Plan also may determine coverage of certain procedures and other benefits available to Members through Prenotification as required by the Member's benefit plan, and discharge planning.

Pre-notification. Pre-notification is advance notification to the Health Benefit Plan of an Inpatient Admission or Outpatient service where no Medical Necessity review is required, such as maternity admissions/deliveries. Pre-notification is primarily used to identify Members for Concurrent review needs, to ascertain discharge planning needs proactively, and to identify Members who may benefit from Case Management programs.

Discharge Planning. Discharge Planning is performed during an Inpatient Admission and is used to identify and coordinate a Member's needs and benefits coverage following the Inpatient stay, such as covered home care, ambulance transport, acute rehabilitation, or Skilled Nursing Facility placement. Discharge Planning involves the Health Benefit Plan's authorization of covered post-Hospital services and identifying and referring Members to Disease Management or Case Management benefits.

Selective Medical Review. In addition to the foregoing requirements, the Health Benefit Plan reserves the right, under its utilization and quality management programs, to perform a medical review prior to, during or following the performance of certain Covered Services ("Selective Medical Review") that are otherwise not subject to review as described above. In addition, the Health Benefit Plan reserves the right to waive medical review for certain Covered Services for certain Providers, if the Health Benefit Plan determines that those Providers have an established record of meeting the utilization and/or quality management standards for these Covered Services. Coverage penalties are not applied to Members where required Selective Medical Review is not obtained by the Provider.

Other Precertification Requirements

Precertification is required by the Health Benefit Plan in advance for certain services. **To obtain a list of services that require Precertification, please log on to www.amerhealthexpress.com or call the Customer Service telephone number that is listed on the Member's Identification Card.** When a Member plans to receive any of these listed procedures, the Health Benefit Plan will review the Medical Necessity for the procedure or treatment in accordance with the criteria and procedures described above and grant prior approval of benefits accordingly.

Surgical, diagnostic and other procedures, listed on the Precertification requirements list, that are performed during an Emergency, as determined by the Health Benefit Plan, do not require Precertification. However, the Health Benefit Plan should be notified within two business days of Emergency services for such procedures, or as soon as reasonably possible, as determined by the Health Benefit Plan.

The Member is responsible to have the Provider performing the service contact the Health Benefit Plan to initiate Precertification for Non-Participating Providers and BlueCard Providers (excluding Inpatient Admissions). The Health Benefit Plan will verify the results of the Precertification with the Member and the Provider.

If such prior approval is not obtained and the Member undergoes the surgical, diagnostic or other procedure or treatment that requires Precertification, then benefits will be provided for Medically Necessary treatment, but the Provider's charge less any applicable Coinsurance or Deductibles shall be subject to a Penalty, as reflected below. Such Penalty, and any difference in what is covered by the Health Benefit Plan and the Member's obligation to the Provider, will be the sole responsibility of, and payable by, the Member.

Precertification Penalty:

The Member will be subject to a 20% reduction in benefits if Precertification is not obtained.

In addition to the Precertification requirements referenced above, the Member should contact the Health Benefit Plan for certain categories of treatment (listed below) so that the Member will know prior to receiving treatment whether it is a Covered Service. Those categories of treatment (in any setting) include:

- Any surgical procedure that may be considered potentially cosmetic;
- Any procedure, treatment, drug or device that represents "emerging technology", and
- Services that might be considered Experimental/Investigative.

The Member's Provider should be able to assist in determining whether a proposed treatment falls into one of these three categories. Also, the Health Benefit Plan encourages the Member's Provider to place the call for the Member.

For more information, please see the **Important Notices** section of this Benefit Booklet that pertain to Experimental/Investigative Services, Cosmetic services, Medically Necessary services and Emerging Technology.

UTILIZATION REVIEW PROCESS AND CRITERIA

Utilization Review Process

A basic condition of IBC's, and its subsidiary QCC Insurance Company's ("the Health Benefit Plan") benefit plan coverage is that in order for a health care service to be covered or payable, the services must be Medically Necessary. To assist the Health Benefit Plan in making coverage determinations for requested health care services, the Health Benefit Plan uses established IBC Medical Policies and medical guidelines based on clinically credible evidence to determine the Medical Necessity of the requested services. The appropriateness of the requested setting in which the services are to be performed is part of this assessment. The process of determining the Medical Necessity of requested health care services for coverage determinations based on the benefits available under a Member's benefit plan is called utilization review.

It is not practical to verify Medical Necessity on all procedures on all occasions; therefore, certain procedures may be determined by the Health Benefit Plan to be Medically Necessary and automatically approved based on the accepted Medical Necessity of the procedure itself, the diagnosis reported or an agreement with the performing Provider. An example of such automatically approved services is an established list of services received in an Emergency room which has been approved by the Health Benefit Plan based on the procedure meeting Emergency criteria and the severity of diagnosis reported (For example, rule out myocardial infarction, or major trauma). Other requested services, such as certain elective Inpatient or Outpatient procedures may be reviewed on a procedure specific or setting basis.

Utilization review generally includes several components which are based on when the review is performed. When the review is required before a service is performed it is called a Precertification review. Reviews occurring during a hospital stay are called a concurrent review, and those reviews occurring after services have been performed are called either retrospective or post-service reviews. The Health Benefit Plan follows applicable state and federally required standards for the timeframes in which such reviews are to be performed.

Generally, where a requested service is not automatically approved and must undergo Medical Necessity review, nurses perform the initial case review and evaluation for coverage approval using the Health Benefit Plan's Medical Policies, established guidelines and evidence-based clinical criteria and protocols; however only a Medical Director employed by the Health Benefit Plan may deny coverage for a procedure based on Medical Necessity. The evidence-based clinical protocols evaluate the Medical Necessity of specific procedures and the majority are computer-based. Information provided in support of the request is entered into the computer-based system and evaluated against the clinical protocols. Nurses apply applicable benefit plan policies and procedures, taking into consideration the individual Member's condition and applying sound professional judgment. When the clinical criteria are not met, the given service request is referred to a Medical Director for further review for approval or denial. Independent medical consultants may also be engaged to provide clinical review of specific cases or for specific conditions. Should a procedure be denied for coverage based on lack of Medical Necessity, a letter is sent to the requesting Provider and Member in accordance with applicable law.

The Health Benefit Plan's utilization review program encourages peer dialogue regarding coverage decisions based on Medical Necessity by providing Physicians with direct access to the Health Benefit Plan's Medical Directors to discuss coverage of a case. Medical Directors and nurses are salaried, and contracted external Physician and other professional consultants are compensated on a per case reviewed basis, regardless of the coverage determination. The Health Benefit Plan does not specifically reward or provide financial incentives to individuals performing utilization review services for issuing denials of coverage. There are no financial incentives for such individuals which would encourage utilization review decisions that result in underutilization.

Clinical Criteria, Guidelines and Resources

The following guidelines, clinical criteria and other resources are used to help make Medical Necessity coverage decisions:

Clinical Decision Support Criteria: Clinical Decision Support Criteria is an externally validated and computer-based system used to assist the Health Benefit Plan in determining Medical Necessity. This evidence-based, Clinical Decision Support Criteria is nationally recognized and validated. Using a model based on evaluating intensity of service and severity of illness, these criteria assist our clinical staff evaluating the Medical Necessity of coverage based on a Member's specific clinical needs. Clinical Decision Support Criteria helps promote consistency in the Health Benefit Plan's plan determinations for similar medical issues and requests, and reduces practice variation among the Health Benefit Plan's clinical staff to minimize subjective decision-making.

Clinical Decision Support Criteria may be applied for Covered Services including but not limited to the following:

- Some elective surgeries-settings for Inpatient and Outpatient procedures (For example, hysterectomy and sinus Surgery).
- Inpatient hospitalizations
- Inpatient Rehabilitation Silverware/utensils;
- Home Health
- Durable Medical Equipment
- Skilled Nursing Facility

Centers for Medicare and Medicaid Services (CMS) Guidelines: A set of guidelines adopted and published by CMS for coverage of services by Medicare for Medicare Members.

IBC Medical Policies: IBC maintains an internally developed set of policies that document the coverage and conditions for certain medical/surgical procedures and ancillary services.

Covered Services for which IBC's Medical Polices are applied include, but are not limited to:

- Ambulance
- Infusion
- Speech Therapy
- Occupational Therapy
- Durable Medical Equipment
- Review of potential cosmetic procedures

IBC (and QCC) Internally Developed Guidelines: A set of guidelines developed specifically by IBC (and QCC), as needed, with input by clinical experts based on accepted practice guidelines within the specific fields and reflecting IBC Medical Policies for coverage.

Delegation of Utilization Review Activities And Criteria

In certain instances, the Health Benefit Plan has delegated certain utilization review activities, including Precertification review, concurrent review, and Case Management, to integrated delivery systems and/or entities with an expertise in medical management of a certain membership population (such as, Neonates/premature infants) or type of benefit or service (such as mental health/psychiatric care and Alcohol and Drug Abuse or radiology). In such instances, a formal delegation and oversight process is established in accordance with applicable law and nationally-recognized accreditation standards. In such cases, the delegate's utilization review criteria are generally used, with the Health Benefit Plan's approval.

Utilization Review and Criteria for Mental Health/Psychiatric Care and Alcohol and Drug Abuse Services

Utilization Review activities for mental health/psychiatric care and Alcohol and Drug Abuse services have been delegated by IBC (and QCC) to a behavioral health management company, which administers the mental health/psychiatric care and Alcohol and Drug Abuse benefits for the majority of the Health Benefit Plan's Members.

SAMPLE

COORDINATION OF BENEFITS

Coordination of Benefits

This Program's Coordination of Benefits (COB) provision is designed to conserve funds associated with health care.

- Definitions

In addition to the Definitions of this Program for purposes of this provision only.

"Plan" shall mean any group arrangement providing health care benefits or Covered Services through:

- Individual, group, (except hospital indemnity plans of less than \$200), blanket (except student accident) or franchise insurance coverage;
- The Plan, health maintenance organization and other prepayment coverage;
- Coverage under labor management trusted plans, union welfare plans, Employer organization plans, or Employee benefit organization plans; and
- Coverage under any tax supported or government program to the extent permitted by law.

- Determination of Benefits

COB applies when an Employee has health care coverage under any other group health care plan (Plan) for services covered under this Program, or when the Employee has coverage under any tax-supported or governmental program unless such program's benefits are, to the extent permitted by law, excess to those of any private insurance coverage. When COB applies, payments may be coordinated between the Health Benefit Plan and the other Plan in order to avoid duplication of benefits.

Benefits under this Program will be provided in full when the Health Benefit Plan is primary, that is, when the Health Benefit Plan determines benefits first. If another Plan is primary, the Health Benefit Plan will provide benefits as described below.

When an Employee has group health care coverage under this Program and another Plan, the following will apply to determine which coverage is primary:

- If the other Plan does not include rules for coordinating benefits, such other Plan will be primary.
- If the other Plan includes rules for coordinating benefits:
 - The Plan covering the patient other than as a Dependent shall be primary.
 - The Plan covering the patient as a Dependent of the parent whose date of birth, excluding year of birth, occurs earlier in the calendar year shall be primary, unless the child's parents are separated or divorced and there is no joint custody agreement. If both parents have the same birthday, the Plan which covered the parent longer shall be primary. However, if the other Plan does not have the birthday rule as described herein, but instead has a rule based on the gender of the parent, and if as a result, the Plans do not agree on the order of benefits, the rule in the other Plan shall control unless the child's parents are separated or divorced.

- Except as provided in the following paragraph, if the child's parents are separated or divorced and there is no joint custody agreement, benefits for the child are determined as follows:
 - ❖ First, the Plan covering the child as a Dependent of the parent with custody;
 - ❖ Then, the Plan of the spouse of the parent with custody of the child.
 - ❖ Finally, the Plan of the parent not having custody of the child.
 - First, the Plan covering the child as a Dependent of the parent with custody;
 - Then, the Plan of the spouse of the parent with custody of the child;
 - Finally, the Plan of the parent not having custody of the child.

 - When there is a court decree which establishes financial responsibility for the health care expenses of the Dependent child and the Plan covering the parent with such financial responsibility has actual knowledge of the court decree, benefits of that Plan are determined first.
 - If the specific terms of the court decree state that the parents shall share joint custody, without stating that one of the parents is responsible for the health care expenses of the child, the Plans covering the child shall follow the order of benefit determination rules outlined above in the paragraph that begins "The Plan covering the patient as a Dependent...".
 - The Plan covering the patient as an Employee who is neither laid off nor retired (or as that Employee's Dependent) is primary to a Plan which covers that patient as a laid off or retired Employee (or as that Employee's Dependent). However, if the other Plan does not have the rule described immediately above and if, as a result, the Plans do not agree on the order of benefits, this rule does not apply.
 - If none of the above rules apply, the Plan which covered the Employee longer shall be primary.
- **Effect on Benefits**
 When the Health Benefit Plan's Plan is secondary, the benefits under this Program will be reduced so that the Health Benefit Plan will pay no more than the difference, if any, between the benefits provided under the other Plan for services covered under this Program and the total Covered Services provided to the Employee. Benefits payable under another Plan include benefits that would have been payable had the claim been duly made therefore. In no event will the Health Benefit Plan payment exceed the amount that would have been payable under this Program if the Health Benefit Plan were primary.

When the benefits are reduced under the primary Plan because an Employee does not comply with the Plan provision, or does not maximize benefits available under the primary Plan, the amount of such reduction will not be considered an allowable benefit. Examples of such provisions are Participating Provider arrangements and other cost-sharing features.

Certain facts are needed to apply COB. The Health Benefit Plan has the right to decide which facts are needed. The Health Benefit Plan may, without consent of or notice to any person, release to or obtain from any other organization or person any information, with respect to any person, which the Health Benefit Plan deems necessary for such purposes. Any person claiming benefits under this Program shall furnish to the Health Benefit Plan such information as may be necessary to implement this provision. The Health Benefit Plan, however, shall not be required to determine the existence of any other Plan or the amount of benefits payable under any such Plan, and the payment of benefits under this Program shall be affected by the benefits that would be payable under any and all other Plans only to the extent that the Health Benefit Plan is furnished with information relative to such other Plans.

this Program in accordance with this provision have been made under this Program in accordance with this any other Plan, the Health Benefit Plan shall have the right, exercisable alone and in its sole discretion, to pay over to any organization making such other payments any amounts it shall determine to be warranted in order to satisfy the intent of this provision. Amounts so paid shall be deemed to be benefits provided under this Program and, to the extent of such payments, the Health Benefit Plan shall be fully discharged from liability under this Program.

▪ Right of Recovery

Whenever payments which should have been made under this Program in accordance with this provision have been made under any other Plan, the Health Benefit Plan shall have the right, exercisable alone and in its sole discretion, to pay over to any organization making such other payments any amounts it shall determine to be warranted in order to satisfy the intent of this provision. Amounts so paid shall be deemed to be benefits provided under this Program and, to the extent of such payments, the Health Benefit Plan shall be fully discharged from liability under this Program.

Whenever payments have been made by the Health Benefit Plan in a total amount, at any time, in excess of the maximum amount of payment necessary at that time to satisfy the intent of this provision, irrespective of to whom paid, the Health Benefit Plan shall have the right to recover such payments to the extent of such excess from among one or more of the following, as the Health Benefit Plan shall determine:

- The person the Health Benefit Plan has paid or for whom they have paid;
- Insurance companies; or
- Any other organizations.

The Member, on the Member's own behalf and on behalf of the Member's Dependents, shall, upon request, execute and deliver such instruments and papers as may be required and do whatever else is reasonably necessary to secure such rights to the Health Benefit Plan.

SUBROGATION AND REIMBURSEMENT RIGHTS

By accepting benefits for Covered Services, the Member agrees that the Health Benefit Plan has the right to enforce subrogation and reimbursement rights. This section explains these rights and the responsibilities of each Member pertaining to subrogation and reimbursement. The term Member includes Eligible Dependents. The term Responsible Third Party refers to any person or entity, including any insurance company, health benefits plan or other third party, that has an obligation (whether by contract, common law or otherwise) to pay damages, pay compensation, provide benefits or make any type of payment to the Member for an injury or illness.

The Health Benefit Plan or the Plan Administrator, as applicable, retains full discretionary authority to interpret and apply these subrogation and reimbursement rights based on the facts presented.

Subrogation Rights

Subrogation rights arise when the Health Benefit Plan pays benefits on behalf of a Member and the Member has a right to receive damages, compensation, benefits or payments of any kind (whether by a court judgment, settlement or otherwise) from a Responsible Third Party. The Health Benefit Plan is subrogated to the Member's right to recover from the Responsible Third Party. This means that the Health Benefit Plan "stands in your shoes" - and assumes the Member's right to pursue and receive the damages, compensation, benefits or payments from the Responsible Third Party to the full extent that the Health Benefit Plan has reimbursed the Member for medical expenses or paid medical expenses on the Member's behalf, plus the costs and fees that are incurred by the Health Benefit Plan to enforce these rights. The right to pursue a subrogation claim is not contingent upon whether or not the Member pursues the Responsible Third Party for any recovery.

Reimbursement Rights

If a Member obtains any recovery - regardless of how it's described or structured - from a Responsible Third Party, the Member must fully reimburse the Health Benefit Plan for all medical expenses that were paid to the Member or on the Member's behalf, plus the costs and fees that are incurred by the Health Benefit Plan to enforce these rights. The Health Benefit Plan has a right to full reimbursement.

Lien

By accepting benefits for Covered Services from the Health Benefit Plan, the Member agrees to a first priority equitable lien by agreement on any payment, reimbursement, settlement or judgment received by the Member, or anyone acting on the Member's behalf, from any Responsible Third Party. As a result, the Member must repay to the Health Benefit Plan the full amount of the medical expenses that were paid to the Member or on the Member's behalf out of the amounts recovered from the Responsible Third Party (plus the costs and fees that are incurred by the Health Benefit Plan to enforce these rights) first, before funds are allotted toward any other form of damages, whether or not there is an admission of fault or liability by the Responsible Third Party. The Health Benefit Plan has a lien on any amounts recovered by the Member from a Responsible Third Party, regardless of whether or not the amount is designated as payment for medical expenses. This lien will remain in effect until the Health Benefit Plan is reimbursed in full.

Constructive Trust

If the Member (or anyone acting on the Member's behalf) receive damages, compensation, benefits or payments of any type from a Responsible Third Party (whether by a court judgment, settlement or otherwise), the Member agrees to maintain the funds in a separate, identifiable account and that the Health Benefit Plan has a lien on the monies. In addition the Member agrees to serve as the trustee over the monies for the benefit of Health Benefit Plan to the full extent that the Health Benefit Plan has reimbursed the Member for medical expenses or paid medical expenses on the member's behalf, plus the attorney's fees and the costs of collection incurred by the Health Benefit Plan.

- These subrogation and reimbursement rights apply regardless of whether money is received through a court decision, settlement, or any other type of resolution.
- These subrogation and reimbursement rights apply even if the recovery is designated or described as covering damages other than medical expenses (such as property damage or pain and suffering).

- These subrogation and reimbursement rights apply with respect to any recoveries made by the Member, including amounts recovered under an uninsured or underinsured motorist policy.

IMPORTANT NOTICES

Regarding Experimental/Investigative Treatment:

The Health Benefit Plan does not cover treatment it determines to be Experimental/Investigative in nature because that treatment is not accepted by the general medical community for the condition being treated or not approved as required by federal or governmental agencies. However, the Health Benefit Plan acknowledges that situations exist when a Member and their Physician agree to utilize Experimental/Investigative treatment. If a Member receives Experimental/Investigative treatment, the Member shall be responsible for the cost of the treatment. A Member or their Physician should contact the Health Benefit Plan to determine whether a treatment is considered Experimental/Investigative. The term "Experimental/Investigative" is defined in the ***Important Definitions*** section.

Regarding Treatment Which Is Not Medically Necessary:

The Health Benefit Plan only covers treatment which it determines Medically Necessary. A Participating Provider accepts the Health Benefit Plan's decision and contractually is not permitted to bill the Member for treatment which the Health Benefit Plan determines is not Medically Necessary unless the Participating Provider specifically advises the Member in writing, and the Member agrees in writing that such services are not covered by the Health Benefit Plan, and that the Member will be financially responsible for such services. A Non-Participating Provider, however, is not obligated to accept the Health Benefit Plan's determination and the Member may not be reimbursed for treatment which the Health Benefit Plan determines is not Medically Necessary. The Member is responsible for these charges when treatment is received by a Non-Participating Provider. The Member can avoid these charges simply by choosing a Participating Provider for the Member's care. The term "Medically Necessary" is defined in the ***Important Definitions*** section.

Regarding Treatment for Cosmetic Purposes:

The Health Benefit Plan does not cover treatment which it determines is for cosmetic purposes because it is not necessitated as part of the Medically Necessary treatment of an illness, injury or congenital birth defect. However, the Health Benefit Plan acknowledges that situations exist when a Member and their Physician decide to pursue a course of treatment for cosmetic purposes. In such cases, the Member is responsible for the cost of the treatment. A Member or their Physician should contact the Health Benefit Plan to determine whether treatment is for cosmetic purposes. The exclusion for services and operations for cosmetic purposes is detailed in the ***Exclusions - What Is Not Covered*** section.

Regarding Coverage for Emerging Technology:

While the Health Benefit Plan does not cover treatment it determines to be Experimental/Investigative, it routinely performs technology assessments in order to determine when new treatment modalities are safe and effective. A technology assessment is the review and evaluation of available clinical and scientific information from expert sources. These sources include but are not limited to articles published by governmental agencies, national peer review journals, national experts, clinical trials, and manufacturer's literature. The Health Benefit Plan uses the technology assessment process to assure that new drugs, procedures or devices ("emerging technology") are safe and effective before approving them as Covered Services. When new technology becomes available or at the request of a practitioner or Member, the Health Benefit Plan researches all scientific information available from these expert sources. Following this analysis, the Health Benefit Plan makes a decision about when a new drug, procedure or device has been proven to be safe and effective and uses this information to determine when an item becomes a Covered Service for the condition being treated or not approved as required by federal or governmental agencies. A Member or their Provider should contact the Health Benefit Plan to determine whether a proposed treatment is considered "emerging technology".

Regarding Non-Discrimination Rights

The Member has the right to receive health care services without discrimination:

- Based on race, ethnicity, age, mental or physical disability, genetic information, color, religion, gender, national origin, source of payment, sexual orientation, or sex, including stereotypes and gender identity;
- For Medically Necessary health services made available on the same terms for all individuals, regardless of sex assigned at birth, gender identity, or recorded gender;
- Based on an individual's sex assigned at birth, gender identity, or recorded gender, if it is different from the one to which such health service is ordinarily available;
- Related to gender transition if such denial or limitation results in discriminating against a transgender individual.

Discretionary Authority

The Health Benefit Plan or Plan Administrator, as applicable, retains discretionary authority to interpret the benefit plan and the facts presented to make benefit determinations. Benefits under this Program will be provided only if the Health Benefit Plan or Plan Administrator, as applicable, determines in its discretion that the Member is entitled to them.

REMEMBER: Whenever a Provider suggests a new treatment option that may fall under the category of "Experimental/Investigative", "cosmetic", or "emerging technology", the Member, or their Provider, should contact the Health Benefit Plan for a coverage determination. That way the Member and the Provider will know in advance if the treatment will be covered by the Health Benefit Plan.

In the event the treatment is not covered by the Health Benefit Plan, the Member can make an informed decision about whether to pursue alternative treatment options or be financially responsible for the non-covered service.

For more information on when to contact the Health Benefit Plan for coverage determinations, please see the Precertification and Prenotification requirements in the *General Information* section.

Changes to this Notice

The terms of this Notice apply to all records that are created or retained by us which contain your PHI. We reserve the right to revise or amend the terms of this Notice. A revised or amended Notice will be effective for all of the PHI that we already have about you, as well as for any PHI we may create or receive in the future. We are required by law to comply with whatever Privacy Notice is currently in effect. You will be notified of any material change to our Privacy Notice before the change becomes effective. When necessary, a revised Notice will be mailed to the address that we have on record for the contract holder of your member contract, and will also be posted on our web site at www.amerihealth.com.

Potential Impact of State Law

The HIPAA Privacy Rule generally does not “preempt” (or take precedence over) state privacy or other applicable laws that provide individuals greater privacy protections. As a result, to the extent state law applies, the privacy laws of a particular state, or other federal laws, rather than the HIPAA Privacy Rule, might impose a privacy standard under which we will be required to operate. For example, where such laws have been enacted, we will follow more stringent state privacy laws that relate to uses and disclosures of the protected health information concerning HIV or AIDS, mental health, substance abuse/chemical dependency, genetic testing, reproductive rights, etc.

How We May Use and Disclose Your Protected Health Information (PHI)

In order to administer our health benefit programs effectively, we will collect, use and disclose PHI for certain of our activities, including payment of covered services and health care operations.

The following categories describe the different ways in which we may use and disclose your PHI. Please note that every permitted use or disclosure of your PHI is not listed below. However, the different ways we will, or might, use or disclose your PHI do fall within one of the permitted categories described below.

Treatment: We may disclosure information to doctors, pharmacies, hospitals and other health care providers who take care of you to assist in your treatment or the coordination of your care.

Payment: We may use and disclose your PHI for all payment activities including, but not limited to, collecting premiums or to determine or fulfill our responsibility to provide health care coverage under our health plans. This may include coordinating benefits with other health care programs or insurance carriers, such as Medicare or Medicaid. For example, we may use and disclose your PHI to pay claims for services provided to you by doctors or hospitals which are covered by your health plan(s), or to determine if requested services are covered under your health plan. We may also use and disclose your PHI to conduct business with other IBC affiliate companies.

Health Care Operations: We may use and disclose your PHI to conduct and support our business and management activities as a health insurance issuer. For example, we may use and disclose your PHI to determine our premiums for your health plan, to conduct quality assessment and improvement activities, to conduct business planning activities, to conduct fraud detection programs, to conduct or arrange for medical review, or to engage in care coordination of health care services.

We may also use and disclose your PHI to offer you one of our value added programs like smoking cessation or discounted health related services, or to provide you with information about one of our disease management programs or other available IBC health products or health services.

We may also use and disclose your PHI to provide you with reminders to obtain preventive health services, and to inform you of treatment alternatives and/or health related benefits and services that may be of interest to you.

Marketing: Your PHI will not be sold, used or disclosed for marketing purposes without your authorization except where permitted by law. Such exceptions may include: a marketing communication to you that is in the form of (a) a face-to-face communication, or (b) a promotional gift of nominal value.

Release of Information to Plan Sponsors: Plan sponsors are employers or other organizations that sponsor a group health plan. We may disclose PHI to the plan sponsor of your group health plan as follows:

- We may disclose “summary health information” to your plan sponsor to use to obtain premium bids for providing health insurance coverage or to modify, amend or terminate its group health plan. “Summary health information” is information that summarizes claims history, claims expenses, or types of claims experience for the individuals who participate in the plan sponsor’s group health plan;
- We may disclose PHI to your plan sponsor to verify enrollment/disenrollment in your group health plan;
- We may disclose your PHI to the plan sponsor of your group health plan so that the plan sponsor can administer the group health plan; and
- If you are enrolled in a group health plan, your plan sponsor may have met certain requirements of the HIPAA Privacy Rule that will permit us to disclose PHI to the plan sponsor. Sometimes the plan sponsor of a group health plan is the employer. In those circumstances, we may disclose PHI to your employer. You should talk to your employer to find out how this information will be used.

Research: We may use or disclose your PHI for research purposes if certain conditions are met. Before we disclose your PHI for research purposes without your written permission, an Institutional Review Board (a board responsible under federal law for reviewing and approving research involving human subjects) or Privacy Board reviews the research proposal to ensure that the privacy of your PHI is protected, and to approve the research.

Required by Law: We may disclose your PHI when required to do so by applicable law. For example, the law requires us to disclose your PHI:

- When required by the Secretary of the U.S. Department of Health and Human Services to investigate our compliance efforts; and
- To health oversight agencies, to allow them to conduct audits and investigations of the health care system, to determine eligibility for government programs, to determine compliance with government program standards, and for certain civil rights enforcement actions.

Public Health Activities: We may disclose your PHI to public health agencies for public health activities that are permitted or required by law, such as to:

- prevent or control disease, injury or disability;
- maintain vital records, such as births and deaths;
- report child abuse and neglect;
- notify a person about potential exposure to a communicable disease;
- notify a person about a potential risk for spreading or contracting a disease or condition;
- report reactions to drugs or problems with products or devices;
- notify individuals if a product or device they may be using has been recalled; and
- notify appropriate government agency(ies) and authority(ies) about the potential abuse or neglect of an adult patient, including domestic violence.

Health Oversight Activities: We may disclose your PHI to a health oversight agency for activities authorized by law, such as: audits; investigations; inspections; licensure or disciplinary actions; or civil, administrative, or criminal proceedings or actions. Health oversight agencies seeking this information include government agencies that oversee: (i) the health care system; (ii) government benefit programs; (iii) other government regulatory programs; and (iv) compliance with civil rights laws.

Lawsuits and Other Legal Disputes: We may disclose your PHI in response to a court or administrative order, subpoena, discovery request, or other lawful process once we have met all administrative requirements of the HIPAA Privacy Rule.

Law Enforcement: We may disclose your PHI to law enforcement officials under certain conditions. For example, we may disclose PHI:

- to permit identification and location of witnesses, victims, and fugitives;
- in response to a search warrant or court order;
- as necessary to report a crime on our premises;
- to report a death that we believe may be the result of criminal conduct; or
- in an emergency, to report a crime.

Coroners, Medical Examiners, or Funeral Directors: We may release PHI to a coroner or medical examiner. This may be necessary, for example, to identify a deceased person or to determine the cause of death. We also may disclose, as authorized by law, information to funeral directors so that they may carry out their duties.

Organ and Tissue Donation: We may use or disclose your PHI to organizations that handle organ and tissue donation and distribution, banking, or transplantation.

To Prevent a Serious Threat to Health or Safety: As permitted by law, we may disclose your PHI if we believe that the disclosure is necessary to prevent or lessen a serious and imminent threat to the health or safety of a person or the public.

Military and National Security: We may disclose to military authorities the PHI of Armed Forces personnel under certain circumstances. We may disclose to authorized federal officials PHI required for lawful intelligence, counter-intelligence, and other national security activities.

Inmates: If you are a prison inmate, we may disclose your PHI to the prison or to a law enforcement official for: (1) the prison to provide health care to you; (2) your health and safety, and the health and safety of others; or (3) the safety and security of the prison.

Underwriting: We will not use genetic information about you for underwriting purposes.

Workers' Compensation: As part of your workers' compensation claim, we may have to disclose your PHI to a worker's compensation carrier.

To You: When you ask us to, we will disclose to you your PHI that is in a "designated record set." Generally, a designated record set contains medical, enrollment, claims and billing records we may have about you, as well as other records that we use to make decisions about your health care benefits. You can request the PHI from your designated record set as described in the section below called "Your Privacy Rights Concerning Your Protected Health Information."

To Your Personal Representative: If you tell us to, we will disclose your PHI to someone who is qualified to act as your personal representative according to any relevant state laws. In order for us to disclose your PHI to your personal representative, you must send us a completed IBC Personal Representative Designation Form or documentation that supports the person's qualification according to state law (such as a power of attorney or guardianship). To request the IBC Personal Representative Designation Form, please contact Member Services at the telephone number listed on the back of your Member Identification card, print the form from our web site at www.amerihealth.com, or write us at the address at the end of this Notice. However, the HIPAA Privacy Rule permits us to choose not to treat that person as your personal representative when we have a reasonable belief that: (i) you have been, or may be, subjected to domestic violence, abuse or neglect by the person; (ii) treating the person as your personal representative could endanger you; or (iii) in our professional judgment, it is not in your best interest to treat the person as your personal representative

To Family and Friends: Unless you object, we may disclose your PHI to a friend or family member who has been identified as being involved in your health care. We also may disclose your PHI to an entity assisting in a disaster relief effort so that your family can be notified about your condition, status, and location. If you are not present or able to agree to these disclosures of your PHI, then we may, using our professional judgment, determine whether the disclosure is in your best interest.

Parents as Personal Representatives of Minors: In most cases, we may disclose your minor child's PHI to you. However, we may be required to deny a parent's access to a minor's PHI according to applicable state law.

Right to Provide an Authorization for Other Uses and Disclosures

- Other uses and disclosures of your PHI that are not described above will be made only with your written authorization.
- You may give us written authorization permitting us to use your PHI or disclose it to anyone for any purpose.
- We will obtain your written authorization for uses and disclosures of your PHI that are not identified by this Notice, or are not otherwise permitted by applicable law.

Any authorization that you provide to us regarding the use and disclosure of your PHI may be revoked by you in writing at any time. After you revoke your authorization, we will no longer use

or disclose your PHI for the reasons described in the authorization. Of course, we are unable to take back any disclosures that we have already made with your authorization. We may also be required to disclose PHI as necessary for purposes of payment for services received by you prior to the date when you revoked your authorization.

Your authorization must be in writing and contain certain elements to be considered a valid authorization. For your convenience, you may use our approved IBC Authorization Form. To request the IBC Authorization Form, please contact Member Services at the telephone number listed on the back of your Member Identification card, print the form from our web site at www.amerhealth.com, or write us at the address at the end of this Notice.

Your Privacy Rights Concerning Your Protected Health Information (PHI)

You have the following rights regarding the PHI that we maintain about you. Requests to exercise your rights as listed below must be in writing. For your convenience, you may use our approved IBC form(s). To request a form, please contact Member Services at the telephone number listed on the back of your Member Identification card or write to us at the address listed at the end of this Notice.

Right to Access Your PHI: You have the right to inspect or get copies of your PHI contained in a designated record set. Generally, a "designated record set" contains medical, enrollment, claims and billing records we may have about you, as well as other records that we may use to make decisions about your health care benefits. However, you may not inspect or copy psychotherapy notes or certain other information that may be contained in a designated record set.

You may request that we provide copies of your PHI in a format other than photocopies such as by electronic means in certain situations. We will use the format you request unless we cannot practicably do so. We may charge a reasonable fee for copies of PHI (based on our costs), for postage, and for a custom summary or explanation of PHI. You will receive notification of any fee(s) to be charged before we release your PHI, and you will have the opportunity to modify your request in order to avoid and/or reduce the fee. In certain situations we may deny your request for access to your PHI. If we do, we will tell you our reasons in writing, and explain your right to have the denial reviewed.

Right to Amend Your PHI: You have the right to request that we amend your PHI if you believe there is a mistake in your PHI, or that important information is missing. Approved amendments made to your PHI will also be sent to those who need to know, including (where appropriate) AmeriHealth's vendors (known as "Business Associates"). We may also deny your request if, for instance, we did not create the information you want amended. If we deny your request to amend your PHI, we will tell you our reasons in writing, and explain your right to file a written statement of disagreement.

Right to an Accounting of Certain Disclosures: You may request, in writing, that we tell you when we or our Business Associates have disclosed your PHI (an “Accounting”). Any accounting of disclosures will **not** include those we made:

- for payment, or health care operations;
- to you or individuals involved in your care;
- with your authorization;
- for national security purposes;
- to correctional institution personnel; or
- before April 14, 2003.

The first accounting in any 12-month period is without charge. We may charge you a reasonable fee (based on our cost) for each subsequent accounting request within a 12-month period. If a subsequent request is received, we will notify you of any fee to be charged, and we will give you an opportunity to withdraw or modify your request in order to avoid or reduce the fee.

Right to Request Restrictions: You have the right to request, in writing, that we place additional restrictions on our use or disclosure of your PHI. We are not required to agree to your request. However, if we do agree, we will be bound by our agreement except when required by law, in emergencies, or when information is necessary to treat you. An approved restriction continues until you revoke it in writing, or until we tell you that we are terminating our agreement to a restriction.

Right to Request Confidential Communications: You have the right to request that we use alternate means or an alternative location to communicate with you in confidence about your PHI. For instance, you may ask that we contact you by mail, rather than by telephone, or at work, rather than at home. Your written request must clearly state that the disclosure of all or part of your PHI at your current address or method of contact we have on record could be an endangerment to you. We will require that you provide a reasonable alternate address or other method of contact for the confidential communications. In assessing reasonableness, we will consider our ability to continue to receive payment and conduct health care operations effectively, and the subscriber’s right to payment information. We may exclude certain communications that are commonly provided to all members from confidential communications. Examples of such communications include benefit booklets and newsletters.

Right to a Paper Copy of This Notice: You have the right to receive a paper copy of our Notice of Privacy Practices. You can request a copy at any time, even if you have agreed to receive this Notice electronically. To request a paper copy of this Notice, please contact Member Services at the telephone number on the back of your Member Identification Card.

An Important Message about a Policy Change to Protect Your Privacy

In compliance with the Health Insurance Portability and Accountability Act (HIPAA), AmeriHealth allows its members the right to authorize a third party to receive their protected health information by completing a HIPAA authorization form.

Previously, the AHPA HIPAA authorization form explained that your authorization would automatically expire six months after your coverage with AHPA ends. We have made a change to this policy and your authorization will no longer expire unless you revoke it in writing.

If you have any questions regarding this new policy, please contact our Customer Service Department by calling the telephone number on the back of your health insurance identification card.
