

AmeriHealth New Jersey Custom Rx is a pharmacy product that offers lower-cost SEH drug options for all benefits plans in the following lines of business: PPO, EPO, POS, POS Plus, HMO, and HMO Plus. Members can save up to 27% compared to our current plans. Each plan will include an up-front deductible that is applicable to brand drugs only, regardless of formulary. Deductible does not apply to generic drugs.

Three variations of up-front deductibles are offered: \$100, \$150, and \$250. AmeriHealth New Jersey has built these new deductible plans off of three existing drug plans:

- 50% / \$125
- \$7 / 50% / \$125
- \$10 / \$40 / \$60

Features of AmeriHealth New Jersey Custom Rx

- There is an up-front deductible that is applicable to brand drugs only, regardless of formulary. Deductible does not apply to generic drugs. There is no need to preselect a pharmacy.
- More than 60,000 pharmacies nationwide participate in the FutureScripts® retail network, including the area's largest retail chains.*
- When member cost-sharing is coinsurance, the out-of-pocket cost is based on the FutureScripts negotiated discount price at participating pharmacies, which is typically below average retail prices.
- No claims forms are needed when participating pharmacies are used.
- Online adjudication and eligibility verification is done at participating pharmacies.
- A computerized system at participating pharmacies instantly checks available drug history for possible drug interactions and other dangers.
