Readability requirements

To ensure that all claims are processed against the same requirements, paper claims are converted to an electronic format. However, system limitations can cause data elements to be misinterpreted during the conversion process.

Follow these guidelines to ensure your claims are successfully converted:

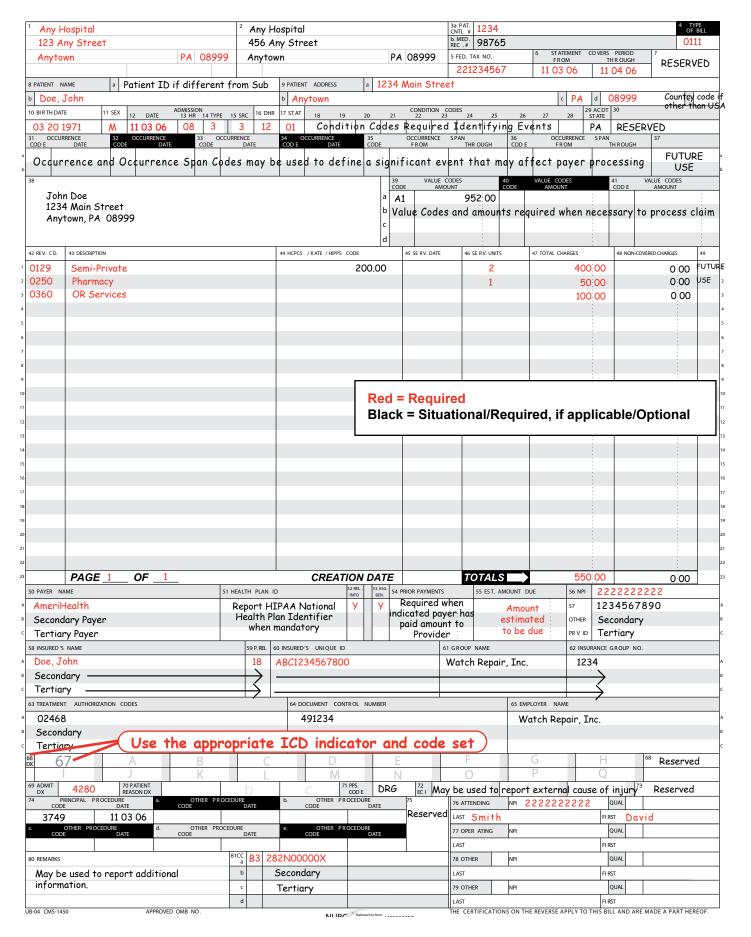

Do

- · Use red drop on UB-04 paper forms only.
- Replacement/corrected claims require a Type of Bill with a Frequency Code "7" (field 4) and claim number in the Document Control Number (field 64).
- · Enter all required data.
- All patient details are required (ID number with prefix, last name, first name, and date of birth).
- Separate the subscriber/patient last name and first name with a comma.
- Ensure the use of proper coding (ICD-10 HIPAA codes, dates of service, and correcting a prior claim).
- · Use standard fonts and sizes.

Don't

- Do not include handwriting anywhere on the claim form.
- Do not use stamped data in any field (NPI, provider names, signatures, corrections, etc.).
- Do not print claim data out of the designated field; it may not be captured.
- Do not print from an older DOT matrix printer; it may not be captured.
